This Book of More Perfectly Useless Information:

The Other Book... of the Most Perfectly Useless Information Mitchell Symons, 2009-06-23 The latest entry in Mitchell Symons' trivia trifecta is chock full of more obscure scientific facts, sporting stats, celebrity gossip and pure trivia than ever. Did you know that Polar bears cover their black noses with their paws for better camouflage? John Steinbeck had to rewrite *Of Mice and Men* because his dog ate the first draft. Wayne Newton is a descendant of Pocahontas. Oscars given out during World War II were made of wood because metal was in short supply. Brooke Shields and Glenn Close are cousins. Diet Coke was invented in 1982. However, in 1379 a Mr. and Mrs. Coke of Yorkshire, England named their daughter Diot, a diminutive of Dionisia, the predecessor of the modern day name Denise. Male monkeys go bald in much the same way that men do. James Gandolfini was voted Best Looking by his high school class. If you are titillated by trivia or fascinated by facts, *The Other Book of the Most Perfectly Useless Information* will keep you entertained for hours.

The Incredible Book of Useless Information Don Voorhees, 2012-10-02 The 1 New York Times bestselling series continues to delight and astound with an all new collection of surprisingly unnecessary facts and figures. Would it surprise you to learn it takes a sloth about a month to digest a meal, more tourists visit France than any other nation in the world, the United States still has debt from the Revolutionary War? Do you think you ever need to know what type of trees are most frequently struck by lightning, how much a clerk was paid for penning the U.S. Constitution, which celebrity uses the pseudonym Slappy White?

The Perfectly Useless Book of Useless Information Don Voorhees, 2010-05-04 It doesn't get any more useless than this. The most inconsequential entry yet in the 1 New York Times bestselling series proves that information is overrated. Your life won't be improved by knowing that Frank Sinatra's mother was a convicted felon, Bugs Bunny was born in Brooklyn, The average American home contains 90¢ in loose change. It is illegal to use the American flag in advertising. And there's no good reason to also discover Which game show host previously worked as a garbageman, Which day of the week is the most popular to rob a bank, Which millionaire loaned his kidnapped grandson ransom money at 4 percent interest, Which country once had a dog for a king.

Attack of the Killer Facts! Eric Gryzymkowski, 2011-04-18 Factoid Attack. Inherent sadistic streak in dentists confirmed. The electric chair was invented by a dentist, Dr. Alfred Southwick. Not surprising dentists have been perfecting torture devices for centuries. Factoid Attack Galaxy at risk. Intelligent life in short supply. In 1961, Astronomer Frank Drake estimated the number of probable intelligent civilizations inhabiting our galaxy. Using conservative numbers, that estimate came to 10,000. Unfortunately, we are not included in that total. Factoid Attack. Colorblind bulls hate all matadors equally. The color of a matador's cape or muleta is traditionally red, which is widely believed to irritate the bull. In reality, bulls are colorblind, so it is irrelevant what color cape a matador uses to antagonize them. Shot in the dark, but maybe it's the being stabbed with swords bit that pisses them off. Forget *Fringe*, *Warehouse 13* and *The X-Files*. In this book, you'll find more weird and wacko truths than in all those combined. From golden poison dart frogs with enough venom to kill ten grown humans to
