Romantasy S Morning Routine Update:

The Little Book of Morning Routines Krystian Szastok, 2019-12-23 Learn how you can take charge and transform your day through a simple minimum 5 minute morning routine. You will learn new ways to boost your energy in the mornings how to build your morning routine and how to stick to the habit of morning routines. Krystian Szastok has written this book based on his research and practice of morning routines over many years. He has been coached and mentored by extremely successful entrepreneurs and life coaches to maximise his everyday success and bring a mix of self discovery and motivation to your morning. The book doesn't just cover morning routines but also helps you discover your inner calling and add more purpose to your life. These qualities and accomplishments will bring you closer to others in your life and help you grow new relationships. From inside of the book Imagine if you could wake up, get inspired, get some exercise, read, meditate, plan your day, hydrate, have your morning coffee, work on your side projects and send messages to your loved ones all before the majority of the world is even awake. I did all this today as I'm writing this book by waking up at 4am and just doing it. You can accomplish these things too just start waking up 15 minutes earlier than you would usually take small steps. I used to wake up at 7am for a year because that felt like my absolute earliest due to climate. I wasn't functioning well, it was way too hot in Asia for me. Who is this book for? If you're someone who wants to achieve more in your life, this book is for you. If you're a freelancer or a business owner and you have a lot of daily responsibilities, this book is for you. If you're in a relationship and want to connect better with your partner or if you're currently single, this is a book for you. Whatever stage of life you're at or lifestyle you're leading, adding morning routines will skyrocket your daily performance.
