## **Southern Writers And Their Worlds:**

Southern Writers and Their Worlds Christopher Morris, Susan A. Eacker, 1998-04-01 In this brilliant collection five historians and literary critics explore the many ways that southern writers influence and are influenced by their region Christopher Morris examines the relationship between economic development and the humor of such Old Southwestern writers as Augustus B Longstreet and Johnson Jones Hooper while Susan A Eacker explains how South Carolina author Louisa McCord came to defend slavery Anne Goodwyn Jones offers a penetrating deconstruction of gender in the southern literary renaissance Charles Joyner reassesses William Styron's controversial decision to write *The Confessions of Nat Turner* in the first person and Bertram Wyatt Brown reveals the connection between depression and literary creativity Presenting interdisciplinary topics within a broad chronological range this remarkable work will be of interest to all students of southern literature and history

*World War I and Southern Modernism* David A. Davis, 2017-11-27 Winner of the 2018 Eudora Welty Prize When the United States entered World War I parts of the country had developed industries urban cultures and democratic political systems but the South lagged behind remaining an impoverished agriculture region Despite New South boosterism the culture of the early twentieth century South was comparatively artistically arid Yet southern writers dominated the literary marketplace by the 1920s and 1930s World War I brought southerners into contact with modernity before the South fully modernized This shortfall created an inherent tension between the region's existing agricultural social structure and the processes of modernization leading to distal modernism a form of writing that combines elements of modernism to depict non modern social structures Critics have struggled to formulate explanations for the eruption of modern southern literature sometimes called the Southern Renaissance Pinpointing World War I as the catalyst David A Davis argues southern modernism was not a self generating outburst of writing but a response to the disruptions modernity generated in the region In *World War I and Southern Modernism* Davis examines dozens of works of literature by writers including William Faulkner Ellen Glasgow and Claude McKay that depict the South during the war Topics explored in the book include contact between the North and the South southerners who served in combat and the developing southern economy Davis also provides a new lens for this argument taking a closer look at African Americans in the military and changing gender roles

**Strange and Lurid Bloom** Anne M. Boyle, 2002 Caroline Gordon regarded as a minor figure of the Southern Renaissance was enviosned as a writer sometimes as a mother but most often as a wife to Allen Tate and as a hostess and novelist who entertained and sometimes mentored artists visiting their home in Tennessee This critical interpretation assesses Caroline Gordon's early struggles to gain voice and respect as a writer her tendency to explore themes of sexual and racial tension and the strange and lurid bloom of Gordon's genius

Adam L. Tate,2005 In Conservatism and Southern Intellectuals 1789 1861 Adam L Tate discusses the nature of southern conservative thought between 1789 and 1861 by examining six conservatives whose lives and careers spanned the antebellum period John Randolph of Roanoke John Taylor of Caroline Nathaniel Beverly Tucker William Gilmore Simms Joseph Glover Baldwin and Johnson Jones Hooper Tate contends that southern conservatism derived its distinctive characteristics from its acceptance of aspects of John Locke s political theory as it was articulated during the American Revolution Locke argued that the state and society were two entities that could be reformed and manipulated by men Showing that most southern conservative intellectuals accepted Locke s premise regarding separation of state and society Tate examines both the political views and social vision of the six conservatives surveyed He pays special attention to how these conservatives dealt with states rights republicanism slavery sectionalism and religion as well as western expansion and migration Tate maintains that while southern conservatives forged a common political tradition based on Old Republican interpretations of the Constitution they did not create a unified tradition of social thought Even though most of them desired a cohesive southern intellectual movement as well as a homogenous southern culture their disagreements over the good

society prevented them from creating a common southern social vision to accompany their states rights political tradition
