Some Single Stories Are More Dangerous Than Others J Deborah Coss,2017-06-29 Essay from the year 2017 in the subject Literature Africa grade 9 5 course English VO3A Accelerated English Composition language English abstract Novelist Chimamanda Ngozi Adichie s lecture starts off with Adichie as a story teller wanting to illuminate The Danger of the Single Story Some single stories are as dangerous as the people who push those stories to become a personal truth a national truth or even a global truth Hitler promoted hatred torture and death through anti Semitism Famous Shock Jock Howard Stern on

the morning of the Oklahoma Bombing 1995 announced on the radio he knew Towelheads were responsible Donald Trump is busy trying to grow Islamophobic ideology as truth These leaders work ed hard to put blinders on their citizens and the world to further their own agendas It is important to take in others information rather than rely on what we think we know and judge them Cultural Humility encourages one to think and feel another s point of view similar to walking that proverbial mile in another person s shoes Recognizing single stories allows people to reflect and become vulnerable If a person bases life on a single story they will have very limited personal experiences Chimamanda Adichie tells the story of how she found her authentic cultural voice and warns that if we hear only a single story about another person or country we risk a critical misunderstanding NPR TED

**Dependent Independence** C.O Makame,2020-10-07 Everyone knows where they were when the first case of Coronavirus in the country was announced but not everyone knows how a virus like Coronavirus reveals so much about the historical socio economic and political sacred cows humanity has been breeding for more than a 1000 years and how these have created a free range for the pandemic to graze and unleash mayhem on an unprepared world This book shatters the easy arrogance of countries with long held beliefs of how their power and economic prowess insulate them from the plagues often associated with the least developed countries in the world In the run up to the 2020 elections Americans are waking up to the reality that Democracy is very fragile and held together not by its gleaming skyscrapers but a philosophical framework that can easily be destroyed if the citizens do not protect it For poor countries perennially unable to shrug off the shackles of corruption and ineptitude holding them back it lays bare the brutal fact that the knee on their neck today is their own An open mind is a very rare item but that is what this book asks of its reader It brings historical facts carefully hidden through centuries of prejudice and misinformation with the intent to force us to confront ourselves to ask questions we had not dared to imagine and perhaps set us on a path to collective healing redemption and progress
