**International Economic Law and the Challenges of the Free Zones** Julien

Chaisse, Jiaxiang Hu, 2019-05-02 Special economic zones SEZs have become a permanent feature of the world trade scene. This book is the first to provide a critical and comprehensive analysis of SEZs covering a wide spectrum of countries and regions. It shows how SEZs, albeit established at the domestic level by different countries, raise multiple legal issues under international economic law. This first-rate book is the product of the Asia FDI Forum IV held in Hong Kong in 2018. Thoroughly exploring the development of the SEZ phenomenon and its players, the contributing authors—all leading economic law experts—review the issues raised by SEZs in the context of international trade law, international investment law, and investment arbitration. They identify the extent to which SEZs have been coherent in their design and policymaking in particular with regard to domestic law reforms. They address such aspects both as core themes and specific examples as the following: investment protection in China's SEZs; state-owned enterprises; regulation; dispute settlement; under what circumstances incentives available in SEZs count as export subsidies prohibited under World Trade Organization (WTO) rules; compliance with internal market rules in European Union (EU) free zones; local populations as victims of land expropriation; Brazil's Manaus Free Trade Zone; India's experience with multiple SEZs; the administrative approval system in the Shanghai Free Trade Zone; economic corridors and transit routes as SEZs; refugee cities; SEZs for migrants; how China's Supreme People's Court serves national strategy; how foreign investors challenge free zone regimes; impacts of the establishment of SEZs on tax revenues; SEZs and labour migration and management models. The chapters also include insights into the new emerging generation of international investment agreements; WTO accession; transparency; and case law materials clarifying specific trade issues associated with SEZs and new rules to protect the environment and labour rights, as well as analysis of crucially significant cases such as *Goetz v The Republic of Burundi*, *Lee Jong Baek v Kyrgyzstan*, and *Ampal American and Others v Egypt*. With its critical and comprehensive analysis of the dynamic SEZ phenomenon across legal, economic, investment, regulatory, and policy matrices, including a thorough analysis of the success factors and required policies for SEZs, this book takes a giant step towards answering the question whether SEZs fundamentally contradict norms of international law or whether SEZs have to be considered as laboratories which facilitate the implementation of international economic policies. Its careful examination of theory and practice and its approach to lessons learned from case studies will reward trade and investment officials, policymakers, diplomats, economists, lawyers, think tanks, business leaders, and others interested in this ever more important area of law and economics.

Forum on China-Africa Cooperation Yazini April, Garth Shelton, 2014-12-14. As the Chinese economy continues to grow, increased commercial engagement with Africa will offer the continent new and rewarding prospects for trade, investment, and economic development. The challenge is for

Africa to grasp these opportunities and take full advantage of China's friendship and willingness to co-operate. The Forum on China-Africa Co-operation (FOCAC) provides a mechanism for all-inclusive diplomatic consultation to advance China-Africa co-operation and to effectively manage expanding economic interdependence. FOCAC is a political arena for developing Sino-African co-operation and problem-solving. FOCAC also provides an important framework for developing a common development agenda. Given new global trends towards antiglobalisation, FOCAC's importance is expected to increase in the years ahead. This book seeks to strengthen the China-Africa relationship and offer new suggestions for both policy makers and scholars seeking to understand and advance FOCAC for mutual benefit. FOCAC holds the key to Africa's development and long-term prosperity. The new policy initiatives and proposals outlined in this study make a very valuable contribution to strengthening FOCAC and advancing Africa's economic development.

*Strategies for Development of a North Korean Special Economic Zone Through Attracting Foreign Investment* Kang-Taeg Lim, Sung-Hoon Lim, 2005

**The Political Economy of Special Economic Zones** Lotta Moberg, 2017-03-16. This book examines SEZs from a political economy perspective both to dissect the incentives of governments, zone developers and exporters and to uncover both the hidden costs and untapped potential of zone policies. Costs include misallocated resources, the encouragement of rent-seeking and distraction of policy makers from more effective reforms. However, the zones also have several unappreciated benefits. They can change the politics of a country by generating a transition from a system of rent-seeking to one of liberalized open markets. In revealing the hidden promise of SEZs, this book shows how the SEZ model of development can succeed in the future.
