

# 8 Best Advertising Practices

To Improve Your Facebook Ad Performance

## 2022

### Know Your Audience

Better targeting of your prospected fans will lead to better campaign results.

### Utilize Ads That Keep People on Facebook

Facebook favors ad campaigns that keep traffic on the platform, like driving traffic to a specific page or event.

### Keep Your Budget Focused

The better focus you put into the creation of your audience and targeting for your ad, the farther your investment will take you.

### Monitor Your Performance

Don't set it and forget it! Keep an eye on your campaign results and make adjustments regularly to achieve the best results for your budget.

### Write Better Copy

Keep your copy short and to the point. It's best to stick to around 10-15 words.

### Use Your Existing Data

Email lists, event, and sales data can be used to target existing fans for fine-tuned results.

### Set Goals for the Future

Make sure your ads help you achieve your future goals. Whether it is to obtain more likes or increase video views, it's best to make sure your goals are always in sight.

### Leverage Video-Based Ads

Use video as your asset opposed to imagery where possible. Video has a higher engagement rate and will increase your return on your investment. Don't forget to include captions - majority of users have videos muted by default.

**Facebook for Business Owners** Gerry Owen, 2015-12-22. hen Facebook first came out I just finished college and started studying web design at open university. Back then it wasn't most popular social network. Everyone used to be all over BEBo back then. At least in UK where I'm based. But I thought Hey this is great I saw potential straight away even before Facebook announced Fan pages in 2007. I made many mistakes and some of my attempts can't even be named marketing. Yes I started with spam and leaned hard lol but that's completely different story. As uni students we tried many Internet based businesses and Affiliate marketing was the first one where I used Facebook. It was done with my personal profile. I spammed the hell out of it and finally I lost my account. But It worked I thought that it was like printing money. Then in 2007 fan pages were introduced and Facebook became huge part of every business I'm involved in. Everything changed once again with introduction of Facebook ads. I even set up wedding video business without knowing anything about film making. All because of Facebook and its advertising. Why Because I knew I can target engaged people. This social network knows everything about

us Facebook knows who we are how old we are where we live what we like to do in spare time our job status hobbies etc All these information can be used by your company to target potential customers *Disconnected* Milan Frankl,2025-02-25
