Parliament. House of Commons. Select Committee on Science and Technology, 2009 This report HCP 44 session 2009 10 ISBN 9780215542663 from the Science and Technology Committee looks at literacy programmes evidence check and concludes that expectations by the Department for Children Schools and Families of the quality of the evidence base for reading programmes are worryingly low It urges the Government to commission randomised controlled trials RCTs The Committee also states it is particularly concerned about the quality of evidence demonstrating cost effectiveness of different programmes and further recommends that the Government reviews its guidelines on RCT design it says even Wikipedia is more thorough and informative The Committee also concludes that the Government s focus on early literacy interventions and phonics based teaching is based on the best available evidence the use of Reading Recovery is based on a lower quality of evidence than the Committee is comfortable with and that the decision to introduce Reading Recovery nationally is not evidence based The Committee further expressed alarm that there was a complete lack of randomised controlled trials using standardised test scores for the Reading Recovery programme in the UK school system before national implementation of the programme *Software and CD-ROM Reviews on File*, 2002 Identification of Learning Disabilities Renee Bradley, Louis Danielson, Daniel P. Hallahan, 2002-12-18

Identification of Learning Disabilities Research to Practice is the remarkable product of a learning disabilities summit conference convened by the Office of Special Education Programs OSEP in August 2001 and the activities following that summit Both the conference and this book were seen as important preludes to congressional reauthorization of the historic Individuals With Disabilities Education Act IDEA scheduled for 2002 and subsequent decision making surrounding implementation The OSEP conference brought together people with different perspectives on LD parents researchers practitioners and policymakers and resulted in this book which examines the research on nine key issues concerning the identification of children with learning disabilities Coverage includes alternative responses to treatment classification approaches processing deficit models and approaches to decision making Chapter Structure Each of the first nine chapters is organized around a lengthy issue oriented paper which presents the most current research on that topic These primary papers are then followed by four respondent papers that reflect a variety of viewpoints on the topic Summarizing Chapter A small group of researchers listed in the final chapter dedicated an enormous amount of time to summarizing the research and developing key consensus statements regarding the identification of children with learning disabilities Their work is sure to have a tremendous impact on future discussions in this area Expertise The following well known scholars have helped summarize the vast amount of research presented in this book as well as the consensus statements derived therefrom Lynne Cook Don Deshler Doug Fuchs Jack M Fletcher Frank Gresham Dan Hallahan Joseph Jenkins Kenneth Kavale Barbara Keogh Margo Mastopieri Cecil Mercer Dan Reschley Rune Simeonsson Joe Torgesen Sharon Vaughn and Barbara Wise
