Act Practice Update Customer Service:

The ACT of Change Management Steve Mathew, 2011-09-12 Transforming an organization's culture involves influencing change one person at a time starting with the change leader. The majority of literature on the subject prescribes the development of teams and implementation of multi-stepped processes. However, the biggest predictor of success is not just the process or the team but rather the character of the leader themselves. Before people will accept change, they must first accept the change leader. The ACT of Change Management is a principled approach to leadership development that is both practical and realistic for today's workplace.
