As his long and illustrious career has evolved the legendary devotion of his fans has remained a constant. Springsteen fans have become worthy of study in their own right with books memoirs and even a movie documenting their passion and perspectives. But his fans are not monolithic and surprisingly little attention has been paid to why so many women from across the world adore The Boss. **Mary Climbs In** illuminates this once overlooked but increasingly important and multi-faceted conversation about female audiences for Springsteen's music. Drawing on unique surveys of fans themselves the study offers insight into women's experiences in their own voices. Authors Lorraine Mangione and Donna Luff explore the depth of women fans' connection to Springsteen and the profound ways this connection has shaped their lives. Reflections from fans enliven each page as readers journey through the camaraderie and joy of concerts the sorrow and confusion of personal loss and suffering the love and closeness of community and the search for meaning and for the self. Viewed through a psychological lens women fans' relationship with Springsteen is revealed in all its complexity as never before. **Mary Climbs In** is an important interdisciplinary contribution to the growing field of Springsteen studies and a must-read for any fan. **Exchange Rates and International Finance** Laurence S. Focusing on the most recent phenomenon of Korean popular culture this book considers the Korean Wave in the global digital age and addresses the social cultural and political implications in their complexity within the contexts of global inequalities and uneven power structures. The collection brings together internationally renowned scholars and regional specialists to examine this historically significant visibly growing yet under-explored current phenomenon in the global digital age. Drawing on a wide range of perspectives from media and communications cultural studies sociology history and anthropology and including a series of case studies from Asia the USA Europe and the Middle East it provides an empirically rich and theoretically stimulating tour of this area of study going beyond the standard Euro American view of the evolving and complex dynamics of the media today.
