The Routledge Companion to Media Audiences Annette Hill, Peter Lunt, 2024-09-27 The Routledge Companion to Media Audiences captures the ways in which audiences and audience researchers are adapting to emerging social cultural market technical and environmental conditions. Bringing together 40 original essays, this anthology explores how our constantly changing encounters with media are complex, contradictory, and increasingly commercialized in the modern world. Each specially commissioned chapter by both early career and experienced international scholars surveys new conceptualizations and constellations of audiences and assesses key issues, themes, and developments within the field. As such, this companion cements itself as an indispensable guide for students and researchers who seek a comprehensive overview and source of inspiration for a diverse range of topics in media audiences. The Routledge Companion to Media Audiences is an accessible landmark tool which enhances our understanding of how media is utilized through advanced empirical research and methodological enquiry. It is a must-read for media studies, communication studies, cultural studies, humanities, and social science scholars and students.

**Social Reading Cultures on BookTube, Bookstagram, and BookTok** Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube, Bookstagram, and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices, bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible, this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media, and cultural studies, as well as teachers and professionals in the book and library industries.
