TikTok Cultures in the United States Trevor Boffone, 2022-04-03 TikTok Cultures in the United States examines the role of TikTok in US popular culture paying close attention to the app's growing body of subcultures. Featuring an array of scholars from varied disciplines and backgrounds, this book uses TikTok subcultures as a point of departure from which to explore TikTok's role in US popular culture today. Engaging with the extensive and growing scholarship on TikTok from international scholars, chapters in this book create frameworks and blueprints from which to analyze TikTok within a distinctly US context, examining topics such as gender and sexuality, feminism, race and ethnicity, and wellness. Shaping TikTok as an interdisciplinary field in and of itself, this insightful and timely volume will be of great interest to students and scholars of new and digital media, social media, popular culture, communication studies, sociology of media, dance, gender studies, and performance studies. **The Routledge Companion to Children's Literature and Culture** Claudia

Nelson, Elisabeth Wesseling, Andrea Mei-Ying Wu, 2023-11-30 Focusing on significant and cutting-edge preoccupations within children's literature scholarship, *The Routledge Companion to Children's Literature and Culture* presents a comprehensive overview of print, digital, and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations. Offering five distinct sections, this volume familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children's literature. Describes the major media formats and genres for texts expressly addressing children. Considers the production, distribution, and valuing of children's books from an assortment of historical and contemporary perspectives, highlighting context as a driver of content. Maps how children's texts have historically presumed and prescribed certain identities on the part of their readers, sometimes addressing readers who share some part of the author's identity, sometimes seeking to educate the reader about a presumed other, and in recent decades increasingly foregrounding identities once lacking visibility and voice. Explores the historical evolutions and trans-regional contacts and interconnections in the long process of the formation of global children's literature, highlighting issues such as retranslation, transnationalism, transculturality, and new digital formats for considering cultural crossings and renegotiations in the production of children's literature. Methodically presented and contextualized, this volume is an engaging introduction to this expanding and multifaceted field.
