Tamara's objective is to help students discover their natural voice and guide them to improve vocal ability. Vocal expression, flexibility, range, articulation, pitch, interpretation and breath support are all key focus areas which are explored during lessons. When teaching singing individually, or in a chorale setting, Tamara works to strengthen a student's head and chest register. After developing these areas of the voice, she then works with students to develop their mixed voice. In a related way, she believes that students must be keenly aware of the importance of body alignment during practice and performance.

It is extremely important to Tamara to provide her students with inspiring vocal repertoire that is appropriate for their age, ability and interests. At all times she ensures that her classroom and learning space is where students can share their thoughts, opinions, values and beliefs openly with confidence and without fear of judgement. Any confidential conversations are always addressed with sensitivity, discretion and respect for the individual. Ultimately, Tamara wants all of her students to master healthy vocal habits and techniques, build confidence and resilience, feel challenged, and understand that their voice has incredible potential and power in this ever-changing world. Tamara's flexible pedagogical approach allows her to consider the needs of each individual regardless of their gender, age, or background and aims to foster their talents. [View](#)
