

WEALTH, POWER, AND THE CRISIS OF LAISSEZ FAIRE CAPITALISM

DONALD GIBSON

Wealth Power And The Crisis Of Laissez Faire Capitalism

David N. Balaam, Michael Veseth

Wealth Power And The Crisis Of Laissez Faire Capitalism:

Wealth, Power, and the Crisis of Laissez Faire Capitalism D. Gibson, 2011-07-04 This forcefully argued book offers a provocative picture of the political intellectual and economic forces that have shaped the history of the United States offering an extensive and in depth critique of laissez faire doctrine and a novel reformulation of the work of American System writers Gibson traces America's rise to global supremacy

The Simple Faith of Franklin Delano Roosevelt Christine Wicker, 2017-10-10 In *The Simple Faith of Franklin Delano Roosevelt* religion journalist and author Christine Wicker establishes that faith was at the heart of everything Roosevelt wanted for the American people This powerful book is the first in depth look at how one of America's richest most patrician presidents became a passionate and beloved champion of the downtrodden and took the country with him Those who knew Roosevelt best invariably credited his spiritual faith as the source of his passion for democracy justice and equality Like many Americans of that time his beliefs were simple He believed the God who heard his prayers and answered them expected him to serve others He anchored his faith in biblical stories and teachings During times so hard that the country would have followed him anywhere he summoned the better angels of the American character in ways that have never been surpassed

The SAGE Encyclopedia of World Poverty Mehmet Odekon, 2015-06-15 The SAGE Encyclopedia of World Poverty Second Edition addresses the persistence of poverty across the globe while updating and expanding the landmark work Encyclopedia of World Poverty originally published in 2006 prior to the economic calamities of 2008 For instance while continued high rates of income inequality might be unsurprising in developing countries such as Mexico the Organization of Economic Co operation and Development OECD reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade including Denmark Sweden and Germany The U N and the World Bank also emphasize the persistent nature of the problem It is not all bad news In March 2013 the Guardian newspaper reported Some of the poorest people in the world are becoming significantly less poor according to a groundbreaking academic study which has taken a new approach to measuring deprivation The report by Oxford University's poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates On the other hand the U N says environmental threats from climate change could push billions more into extreme poverty in coming decades All of these points lead to the need for a revised updated and expanded edition of the Encyclopedia of World Poverty Key Features 775 evaluated and updated and 175 entirely new entries New Reader's Guide categories Signed articles with cross references Further Readings will be accompanied by pedagogical elements Updated Chronology Resource Guide Glossary and thorough new Index The SAGE Encyclopedia of World Poverty Second Edition is a dependable source for students and researchers who are researching world poverty making it a must have reference for all academic libraries

Command of Commerce BEN A.. BROOKS VAGLE (STEPHEN G.), Stephen G. Brooks, 2025-07-04 The

conventional wisdom has held that China's economic power is very close to America's and that Washington cannot undertake a broad economic cutoff of China without hurting itself as much or more. Command of Commerce shows that the conventional wisdom is wrong. America's economic power has been vastly underestimated and China's overestimated. Across multiple scenarios, the book shows that China's economic losses from a broad cutoff would be far greater than America's. A powerful analysis of the true scope of US and Chinese economic power will reshape our understanding of the most important geopolitical rivalry in the world.

Capitalist Dictatorship Milan Zafirovski, 2021-04-26 Milan Zafirovski identifies and investigates the resurgence of capitalist dictatorship in contemporary society especially after 2016. This book introduces the concept of capitalist dictatorship to the academic audience for the first time. It examines the capitalist dictatorship as a total social system composed of specific systems such as a coercive economy, repressive polity, illiberal civil society, and irrational culture in contrast to liberal democracy. It also investigates multiple dimensions, forms, and indicators of capitalist dictatorship and calculates degrees of capitalist dictatorship for contemporary Western and comparable societies such as OECD countries. Capitalist dictatorship including autocracy, Zafirovski argues, is the gravest threat to contemporary democratic society post 2016.

Gender Violence Laura L. O'Toole, Jessica R. Schiffman, 1997-03 How gender and sexuality can be life threatening. Though violence against women has received increasing attention from scholars and the general public alike, much of the literature on the subject is scattered in monographs, journals, and books focusing on specific forms of gender violence. In their path-breaking anthology *Gender Violence: Interdisciplinary Perspectives*, editors Laura L. O'Toole and Jessica Schiffman have brought together central articles and authors to construct a remarkably broad understanding of the gender-related manifestations of violence. *Gender Violence* is composed of three sections: one examining the roots of male violence and victimization of women, another exploring forms of sexual coercion and violence, and a third offering a number of perspectives on promoting nonviolence in the context of gender relations. Chapters consider topics including sexual harassment, rape, children and gender violence, battering in intimate relationships, and pornography. The list of contributors includes such diverse and well-known scholars as Friedrich Engels, bell hooks, Diana Scully, Harry Brod, and Linda Gordon, and poets such as Audre Lorde and Margaret Randall. The book also contains a number of original pieces with novel approaches to subjects such as domestic violence and its effects on children. With its interdisciplinary perspective and wide-ranging subject matter, *Gender Violence* is an excellent primary text as well as an invaluable reference for scholars in the field of women and violence.

The Current Crisis in American Politics Walter Dean Burnham, 1982 Discusses United States voting patterns, the decline of party loyalty, and the low level of voter participation and examines the rise to power of the Reagan administration.

Bodies for Profit and Power Lisa Wenger Bro, 2023-10-05 Early dystopian science fiction like George Orwell's 1984 or Thea von Harbou's Metropolis show us bleak worlds where capitalism has no boundaries and has corrupted sovereign powers, exploiting the lower classes and benefiting only a few at the top. Political laws and policies related to

human life or the biopolitical devalue that life making humanity little more than expendable machines producing for capitalism and capitalism's focus on progress has made it a central concern in much of science fiction. Covering science fiction from the early 1900s to present, this book examines the portrayal of dystopian capitalism and the biopolitical in works like *Brave New World* and *R U R* among many others. The Journal of economic history, 1945 Wealth, Virtual Wealth and Debt Frederick Soddy, 1926 *Political Constructions* Carol Kay, 1988 **Conference Board Economic Record**, 1949 *Conference Board Economic Record - National Industrial Conference Board* Garet Garrett, 1948 *American Affairs* Garet Garrett, 1949 **Islam and Economic Development** Muhammad Umer Chapra, 1993 **Introduction to International Political Economy** David N. Balaam, Michael Veseth, 2001 Beginning with the exciting discovery and excavation of the Aztec's Great Temple in Mexico City, this vivid narrative depicts the exciting and tragic story of the Spaniards' invasion and conquest of Mexico. Told as an eyewitness account, the retelling explores the great battles that led to the fall of the empire, focusing on the meeting between Cortes and Moctezuma and the resultant confrontation between the Spaniards and Aztecs. Rich, detailed illustrations and captivating facts offer young readers a re-creation of the glory of the Aztecs and the empire's sad decline. Readings on Governance and Development, 2002 With reference to Nepal contributed articles **The Economics of Enterprise** Herbert Joseph Davenport, 1913 *Dwarfing of Man* V. Kinsky, 1974 On the concept of individual liberty, treatise based on historical fact *Southeast Asian Journal of Social Science*, 1996
