**Rise to the 1%** Sharan Hegde, 2025-10-30 What separates the 1% isn't luck, timing or inheritance. It's mindset, planning and execution. In *Rise to the 1%*, Sharan Hegde, one of India's most trusted voices in personal finance, pulls back the curtain on the money myths we inherit, the mistakes we repeat, and the mindset shifts that quietly create wealth over time. This isn't just a book about saving or investing; it's a full rewire. From early retirement and health planning to insurance, loans, credit cards, cars, taxes, and even giving back, Sharan breaks down life's biggest financial decisions with clarity, honesty, and real-world examples you'll actually relate to. With a voice that is equal parts expert and friend, he dismantles toxic money beliefs, simplifies complex ideas, and most importantly, shows you that financial freedom isn't reserved for the ultra-rich. It's for the intentional. This book won't just change how you handle money; it'll change how you see yourself. *Mind-Reading and Artificial Intelligence: Past, Present and Future* Prof. (Dr.) Jai Paul Dudeja, 2024-10-30 Mind reading typically refers to the ability of discerning or interpreting someone else's thoughts, feelings, or intentions. Mind Reading has two components: human-based and ii device-based artificial intelligence. Artificial Intelligence (AI) refers to programming computers to do tasks that normally require human intelligence, like learning, problem-solving, and understanding language. It is like giving computers the ability to think and make decisions on their own, similar to how humans do. AI helps machines learn from data, adapt to new situations, and perform tasks without being explicitly programmed for each step. This book covers the topics on human-based and device-based mind reading and interpretation, artificial intelligence, that is divided into 32 chapters and the following 8 sections: i Mind Reading and Artificial Intelligence Introduction and Overview ii Human Based Mind Reading iii Artificial Intelligence Introduction Types of Learning iv Device Based Mind Reading And Virtual Assistants v Applications and Opportunities of Artificial Intelligence vi Artificial Intelligence Ethical Issues Risks and Regulations vii Artificial Consciousness and viii Artificial Intelligence in India Status and the Way Forward *Navigating Data Science in the Age of AI* Babita Singla, Kumar Shalender, Nripendra Singh, 2025-04-14 *Navigating Data Science in the Age of AI* Exploring Possibilities of Generative Intelligence can offer significant contributions in the field of generative intelligence in the context of data science and help stakeholders formulate strategies to tackle its adoption, implementation, and control challenges.

**Review of Some SMS Verification Services and Virtual Debit/Credit Cards Services for Online Accounts Verifications** Dr. Hidaia Mahmood Alassouli, 2020-11-08

Today a lot of sites require SMS verification code for registration account. If you do not want to use your personal phone number to verify or activate account, use virtual phone number. Thus there is no need for a SIM card in your mobile phone; only need access to the Internet. You can receive text messages via WEB interface or API. There are a lot of websites that offer temporary free as well as private numbers from around the world to receive activation codes and SMS confirmations online. Their private numbers are intended for two types of SMS reception: disposable virtual numbers and numbers for rent. You can receive SMS online and use the numbers to sign up or verify for any services like Telegram, Facebook, Google, Gmail, WhatsApp, Viber, Line, WeChat, KakaoTalk, etc. In the first part of the book, I will mention the best websites that offer virtual phone numbers from around the world to receive activation codes and SMS confirmations online. The VCC is a short form of Virtual Credit Card that can be used for online verification: PayPal, eBay, Amazon, and Google Adwords account verification. The second part of the book will guide you to how to obtain virtual debit credit cards for sake of online accounts verification. There are bulk numbers of banks and debit credit cards issuers that offer virtual or physical debit credit card. But I will not go through any of them as I covered them in a book I published previously. I will only concentrate on some quick methods to obtain debit credit cards for sake of online account verification. I will briefly talk about generating virtual debit credit cards: namso gold CC BIN generator for verification of some online services. Then I will talk about paypalvccs.com website that offers Virtual Visa Card for sake of online accounts verification. At the end, I will mention how to get USA shipment address through Viabox.com website and I will list some of the free VPN Services I commonly use.

The book consists from the following parts:

1. Some free websites that can be used to receive SMS online using numbers from some countries.
2. Some paid not free websites that can be used to receive SMS online using numbers from some countries.
3. Getting free phone number in US or Canada and Other Countries.
4. Best websites that offer SMS verification sending SMS and renting number services.
5. Generating some virtual debit credit cards through BIN Codes for verification of some online services.
6. Paypalvccs.com website that offer Virtual Visa Card for sake of account verifications.
7. Getting USA shipment address through Viabox.com.
8. Some of the free VPN Services I commonly use.
