**The Birth Controllers** Peter Fryer,1965      *The Birth Controllers* Peter Fryer,1966      *The Birth Control Review* Margaret Sanger,1917      *The Battle for Birth Control* Jessica L. Furgerson,2022-03-29 The Battle for Birth Control delves into the complex rhetorical history of the American birth control movement in its formative years In just four decades advocates under the strategic guidance of Margaret Sanger transitioned the fight for contraception from fringe radical movement to a respectable mainstream cause endorsed by powerful professionals and politicians alike Eschewing their early ideological commitments to obtain widespread acceptance birth controllers adopted a strategy of political accommodation characterized by deferential rhetoric and careful posturing This strategy secured significant victories for the movement but at what cost Informed by a deep commitment to reproductive justice The Battle for Birth Control traces the duplicity of the movement s early rhetoric and argues that their accommodationist strategy yielded increased contraceptive access solely because of their willingness to endorse the neoliberal regime of reproductive control largely responsible for the current threats to reproductive autonomy in the 21st century      **Birth Control in Nineteenth-Century England** Angus McLaren,2022-08-19 The decline of the British birth rate was arguably the most important social change to occur in the last decades of the nineteenth century but historians have shown remarkably little interest in the phenomenon Most of the work done on the question has been by sociologists and reflects their assumption that the progressive adoption of birth control was largely a matter of the lower classes aping the behaviour of their betters Originally published in 1978 this book argues against this interpretation It contends that the great interest of the nineteenth century birth control debate is that it reveals that there was not a growing consensus of opinion on the question of family planning but rather two cultural confrontations the struggle of the middle class propagandists of both left and right to manipulate for political purposes working class attitudes towards procreation and on a deeper level the clash of the differing attitudes of men and women towards the possibility of fertility control The purpose of this study is to place the idea and practice of birth control in their social and political context and four major factors are focused upon to this end the first is that the birth control issue played a key role in the confrontation between Malthusians socialists eugenists and feminists Secondly the whole question of contraception led to a conflict between doctors quacks midwives and ordinary men and women seeking to control their own fertility Thirdly men and women belong to different sexual cultures and necessarily respond in different ways to the possibility of family regulation and finally despite the claims of some that birth control was an innovation it was the pre industrial forms of fertility control including abortion which brought the birth rate down      **birth control** ,1922      *Birth Control Review* Margaret Sanger,1918      **Birth Control** Halliday Sutherland,1922      **The Birth Control Review** Margaret Sanger,1921      **The New Generation** ,1926      [Birth Control, Birth Controllers and Perversion of Logic](#) Ignatius Wiley Cox,1936      *Fighting for Control* Lina-Maria Murillo,2024-12-20 The first birth control clinic in El Paso Texas opened in 1937 Since

then Mexican origin women living in the border cities of El Paso and Ciudad Ju rez have confronted various interest groups determined to control their reproductive lives including a heavily funded international population control campaign led by Planned Parenthood Federation of America as well as the Catholic Church and Mexican American activists Uncovering nearly one hundred years of struggle Lina Maria Murillo reveals how Mexican origin women on both sides of the border fought to reclaim autonomy and care for themselves and their communities Faced with a family planning movement steeped in eugenic ideology working class Mexican origin women strategically demanded additional health services and then formed their own clinics to provide care on their own terms Along the way they developed what Murillo calls reproductive care quotidian acts of community solidarity as activists organized for better housing education wages as well as access to birth control abortion and more Centering the agency of these women and communities Murillo lays bare Mexican origin women s long battle for human dignity and power in the borderlands as reproductive freedom in Texas once again hangs in the balance **Birth**
