**Transnational Streaming Television** Joseph Straubhaar, Swapnil Rai, Melissa Santillana, Silvia Dalben,2025-09-29 Examining the impact of streaming on the global production and flow of television and film this book

provides an innovative theoretical framework to conceptualize how asymmetric dynamics of power play out in the era of global streaming. This book analyses Netflix and Amazon Prime Video two tech based digital native streamers and compares them to Disney and HBO Max Warner Bros Discovery two legacy Hollywood studios with cable TV and broadcasting operations now pursuing global streaming. The book compares their different models of operation and specifically explores how these four streamers particularly Netflix are co-producing and commissioning television programs and films in an increasing number of countries. It also examines how this trend is creating new opportunities for independent producers and soft power for the producing nations. This book further considers the direct algorithmic targeting of individuals by their genre preferences across boundaries of culture language and nation boundaries that previously protected national and regional television markets creating a new flow of data colonialism. At a more local level the book also examines some of the national and regional streaming platforms emerging in some of the key players in the Global South Brazil India and Mexico. This is essential reading for students researchers and academics interested in media studies global media and global television studies.

*Inside Flyer*, 2010    **D & B Regional Business Directory**, 2010    **No Rules Rules** Reed Hastings, Erin Meyer, 2020-09-08 The New York Times bestseller. Shortlisted for the 2020 Financial Times McKinsey Business Book of the Year. Netflix cofounder Reed Hastings reveals for the first time the unorthodox culture behind one of the world's most innovative, imaginative and successful companies. There has never before been a company like Netflix. It has led nothing short of a revolution in the entertainment industries generating billions of dollars in annual revenue while capturing the imaginations of hundreds of millions of people in over 190 countries. But to reach these great heights Netflix which launched in 1998 as an online DVD rental service has had to reinvent itself over and over again. This type of unprecedented flexibility would have been impossible without the counterintuitive and radical management principles that cofounder Reed Hastings established from the very beginning. Hastings rejected the conventional wisdom under which other companies operate and defied tradition to instead build a culture focused on freedom and responsibility one that has allowed Netflix to adapt and innovate as the needs of its members and the world have simultaneously transformed. Hastings set new standards valuing people over process emphasizing innovation over efficiency and giving employees context not controls. At Netflix there are no vacation or expense policies. At Netflix adequate performance gets a generous severance and hard work is irrelevant. At Netflix you don't try to please your boss you give candid feedback instead. At Netflix employees don't need approval and the company pays top of market. When Hastings and his team first devised these unorthodox principles the implications were unknown and untested. But in just a short period their methods led to unparalleled speed and boldness as Netflix quickly became one of the most loved brands in the world. Here for the first time Hastings and Erin Meyer bestselling author of *The Culture Map* and one of the world's most influential business thinkers dive deep into the controversial ideologies at the heart of the Netflix psyche which have generated results that are the envy of the business world. Drawing on hundreds of

interviews with current and past Netflix employees from around the globe and never before told stories of trial and error from Hastings s own career No Rules Rules is the fascinating and untold account of the philosophy behind one of the world s most innovative imaginative and successful companies

### **That Will Never Work** Marc Randolph,2019-09-17

In the tradition of Phil Knight s Shoe Dog comes the incredible untold story of how Netflix went from concept to company all revealed by co founder and first CEO Marc Randolph Once upon a time brick and mortar video stores were king Late fees were ubiquitous video streaming unheard was of and widespread DVD adoption seemed about as imminent as flying cars Indeed these were the widely accepted laws of the land in 1997 when Marc Randolph had an idea It was a simple thought leveraging the internet to rent movies and was just one of many more and far worse proposals like personalized baseball bats and a shampoo delivery service that Randolph would pitch to his business partner Reed Hastings on their commute to work each morning But Hastings was intrigued and the pair with Hastings as the primary investor and Randolph as the CEO founded a company Now with over 150 million subscribers Netflix s triumph feels inevitable but the twenty first century s most disruptive start up began with few believers and calamity at every turn From having to pitch his own mother on being an early investor to the motel conference room that served as a first office to server crashes on launch day to the now infamous meeting when Netflix brass pitched Blockbuster to acquire them Marc Randolph s transformational journey exemplifies how anyone with grit gut instincts and determination can change the world even with an idea that many think will never work What emerges though isn t just the inside story of one of the world s most iconic companies Full of counter intuitive concepts and written in binge worthy prose it answers some of our most fundamental questions about taking that leap of faith in business or in life How do you begin How do you weather disappointment and failure How do you deal with success What even is success From idea generation to team building to knowing when it s time to let go That Will Never Work is not only the ultimate follow your dreams parable but also one of the most dramatic and insightful entrepreneurial stories of our time
