The Soviet Union A Very Short Introduction

Stephen Lovell

The Soviet Union A Very Short Introduction:

The Russian Revolution S. A. Smith, 2002-02-21 This Very Short Introduction provides an analytical narrative of the main events and developments in Soviet Russia between 1917 and 1936 It examines the impact of the revolution on society as a whole on different classes ethnic groups the army men and women youth Its central concern is to understand how one structure of domination was replaced by another The book registers the primacy of politics but situates political developments firmly in the context of massive economic social and cultural change Since the fall of Communism there has been much reflection on the significance of the Russian Revolution The book rejects the currently influential liberal interpretation of the revolution in favour of one that sees it as rooted in the contradictions of a backward society which sought modernization and enlightenment and ended in political tyranny ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable The Soviet Union Stephen Lovell, 2009-07-23 Almost twenty years after the Soviet Unions end what are we to make of its existence Was it a heroic experiment an unmitigated disaster or a viable if flawed response to the modern world Taking a fresh approach to the study of the Soviet Union this Very Short Introduction blends political history with an investigation into the society and culture at the time Stephen Lovell examines aspects of patriotism political violence poverty and ideology and provides answers to some of the big questions about the Soviet experience ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **The Soviet Union: A Very Short Introduction** Stephen Lovell, 2009-07-23 Taking a fresh approach to the study of the Soviet Union this Very Short Introduction blends political history with an investigation into Soviet society and culture from 1917 to 1991 Stephen Lovell examines aspects of patriotism political violence poverty and ideology and provides answers to some of the big questions about the Soviet experience Throughout the book takes a refreshing thematic approach to the Soviet Union and provides an up to date consideration of the Soviet Union s impact and what we have learnt since its end **Russian History** Geoffrey Hosking, 2012-03-29 Spanning the divide between Europe and Asia Russia is a multi ethnic empire with a huge territory strategically placed and abundantly provided with natural resources But Russia s territory has a harsh climate is cut off from most maritime contact with the outside world and has open and vulnerable land frontiers It has therefore had to devote much of its wealth to the armed forces and the sheer size of the empire has made it difficult to mobilise resources and to govern effectively especially given the diversity of its people In this Very Short Introduction Geoffrey Hosking discusses all aspects of Russian history from the struggle by the

state to control society the transformation of the empire into a multi ethnic empire Russia s relationship with the West Europe the Soviet experience and the post Soviet era ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *The Cold War: A Very Short Introduction* Robert J.

McMahon,2003-03-27 The massive disorder and economic ruin following the Second World War inevitably predetermined the scope and intensity of the Cold War But why did it last so long And what impact did it have on the United States the Soviet Union Europe and the Third World Finally how did it affect the broader history of the second half of the twentieth century what were the human and financial costs This Very Short Introduction provides a clear and stimulating interpretive overview of the Cold War one that will both invite debate and encourage deeper investigation ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable [How Not to Network a Nation](#) Benjamin Peters,2016-03-25 How despite thirty years of effort Soviet attempts to build a national computer network were undone by socialists who seemed to behave like capitalists Between 1959 and 1989 Soviet scientists and officials made numerous attempts to network their nation to construct a nationwide computer network None of these attempts succeeded and the enterprise had been abandoned by the time the Soviet Union fell apart Meanwhile ARPANET the American precursor to the Internet went online in 1969 Why did the Soviet network with top level scientists and patriotic incentives fail while the American network succeeded In *How Not to Network a Nation* Benjamin Peters reverses the usual cold war dualities and argues that the American ARPANET took shape thanks to well managed state subsidies and collaborative research environments and the Soviet network projects stumbled because of unregulated competition among self interested institutions bureaucrats and others The capitalists behaved like socialists while the socialists behaved like capitalists After examining the midcentury rise of cybernetics the science of self governing systems and the emergence in the Soviet Union of economic cybernetics Peters complicates this uneasy role reversal while chronicling the various Soviet attempts to build a unified information network Drawing on previously unknown archival and historical materials he focuses on the final and most ambitious of these projects the All State Automated System of Management OGAS and its principal promoter Viktor M Glushkov Peters describes the rise and fall of OGAS its theoretical and practical reach its vision of a national economy managed by network the bureaucratic obstacles it encountered and the institutional stalemate that killed it Finally he considers the implications of the Soviet experience for today s networked world *The Russian Economy: A Very Short Introduction* Richard Connolly,2020-07-23 Russia today is as prominent in international affairs as it was at the height of the

Cold War Yet the role that the economy plays in supporting Russia's position as a great power on the international stage is poorly understood For many Russia's political influence far exceeds its weight in the global economy However Russia is one of the largest economies in the world it is not only one of the world's most important exporters of oil and gas but also of other natural resources such as diamonds and gold Its status as one of the largest wheat and grain exporters shapes commodity prices across the globe while Russia's enormous arms industry second only to the United States provides it with the means to pursue an increasingly assertive foreign policy All this means that Russia's economy is crucial in serving the country's political objectives both within Russia and across the world Russia today has a distinctly political type of economy that is neither the planned economy of the Soviet era nor a market based economy of the Euro Atlantic variety Instead its economic system is characterised by a unique blend of state and market control and freedom and natural resources alongside human ingenuity The Russian Economy A Very Short Introduction introduces readers to the dimensions of the Russian economy that are often ignored by the media and public figures or exaggerated and misunderstood In doing so it shows how Russia's economy is one of global significance and helps explain why many of Russia's enduring features such as the heavy hand of the state and the emphasis on military industrial production have persisted despite the immense changes that took place after the disintegration of the Soviet Union in 1991

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Cold War Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991 The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world changing event including wars new military technologies diplomatic initiatives espionage activities important individuals and organizations economic developments societal and cultural events and more This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War which are followed by some 1 500 entries on key individuals wars battles weapons systems diplomacy politics economics and art and culture Each entry has cross references and a list of books for further reading The text includes more than 100 key primary source documents a detailed chronology a glossary and a selective bibliography Numerous illustrations and maps are inset throughout to provide additional context to the material

The Soviet and Post-Soviet Review, 2011 The 1950s James S. Olson, Mariah Gumpert, 2018-10-01 This volume serves as an invaluable guide to key political social and cultural concepts of the 1950s This

volume covers the entire decade of the 1950s from the uneasy peace following World War II to the beginnings of cultural discontent that would explode in the 1960s It highlights key historical social and cultural elements of the period including the Cold War and perceived communist threat the birth of the middle class and establishment of consumer culture the emergence of the civil rights movement and the normalization of youth rebellion and rock and roll An introduction presents the historical themes of the period and an alphabetical encyclopedic entries relating to period specific themes comprises the core reference material in the book The book also contains a range of primary documents with introductions and a sample Documents Based Essay Question Other features are a list of Top Tips for answering Documents Based Essay Questions a thematically tagged chronology and a list of specific learning objectives readers can use to gauge their working knowledge and understanding of the period

The Soviet Union: 1917-1940 Edward Acton,Tom Stableford,2005 Combining narrative commentary with over 270 contemporary documents this title provides an entree to debate over humanity s most momentous and tragic experiment It is suitable for students at all levels

Ukraine, Russia and the West Stefan Hedlund,2023-04-28 Why did Russia s all out war against Ukraine come as such a surprise to the West This is a key question considered by this reflective and wide ranging book The book argues that Russia and the West were playing different games while Russia under Putin had become obsessed with using hard power to restore the Cold War security architecture in Europe the major Western powers had become equally obsessed with value promotion that would ensure a global triumph for the values of the West touted as universal values The Russian play for spheres of interest was clearly defined and demarcated the Western play for values was by definition without limits Hence there could be no common ground no constructive communication and no common understanding While Russia convinced itself that it would be successful in forcing the West to accept its claims for a new security order based on hard power Western governments deluded themselves into believing that value promotion would transform Russia into a liberal democracy and a rules based market economy Examining the full situation exploring political military economic and business spheres the book provides a deep analysis of how the present confrontation has come about

The Soviet Union Edward Acton,Tom Stableford,2005 Combining narrative commentary with over 270 contemporary documents this title provides an entree to debate over humanity s most momentous and tragic experiment It is suitable for students at all levels

Forthcoming Books Rose Arny,2003-04 *American Book Publishing Record* ,2005

The Soviet Union Review ,1925 **Talking Book Topics** ,2017 *Bibliographic Index* ,2006 *The Human Factor* Archie Brown,2020 The Human Factor focuses on the main figures involved in the Cold War Gorbachev Reagan and Thatcher examining them both in their own right and as proxies for larger economic social and political forces at play in their respective countries **The Russian Revolution** Stephen Anthony Smith,2002 This introduction to the Russian Revolution provides a narrative of the main developments between 1917 and 1936 It sees the process as the result of a backward society which sought modernisation and ended in political tyranny

The book delves into The Soviet Union A Very Short Introduction. The Soviet Union A Very Short Introduction is an essential topic that must be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into The Soviet Union A Very Short Introduction, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
 - Chapter 1: Introduction to The Soviet Union A Very Short Introduction
 - Chapter 2: Essential Elements of The Soviet Union A Very Short Introduction
 - Chapter 3: The Soviet Union A Very Short Introduction in Everyday Life
 - Chapter 4: The Soviet Union A Very Short Introduction in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, the author will provide an overview of The Soviet Union A Very Short Introduction. This chapter will explore what The Soviet Union A Very Short Introduction is, why The Soviet Union A Very Short Introduction is vital, and how to effectively learn about The Soviet Union A Very Short Introduction.
 3. In chapter 2, this book will delve into the foundational concepts of The Soviet Union A Very Short Introduction. The second chapter will elucidate the essential principles that must be understood to grasp The Soviet Union A Very Short Introduction in its entirety.
 4. In chapter 3, the author will examine the practical applications of The Soviet Union A Very Short Introduction in daily life. The third chapter will showcase real-world examples of how The Soviet Union A Very Short Introduction can be effectively utilized in everyday scenarios.
 5. In chapter 4, the author will scrutinize the relevance of The Soviet Union A Very Short Introduction in specific contexts. The fourth chapter will explore how The Soviet Union A Very Short Introduction is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, this book will draw a conclusion about The Soviet Union A Very Short Introduction. This chapter will summarize the key points that have been discussed throughout the book.
- The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of The Soviet Union A Very Short Introduction.

The Soviet Union A Very Short Introduction Introduction

In the digital age, access to information has become easier than ever before. The ability to download The Soviet Union A Very Short Introduction has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Soviet Union A Very Short Introduction has opened up a world of possibilities. Downloading The Soviet Union A Very Short Introduction provides numerous advantages over physical copies of books and documents. Firstly, it is

incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Soviet Union A Very Short Introduction has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Soviet Union A Very Short Introduction. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Soviet Union A Very Short Introduction. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Soviet Union A Very Short Introduction, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Soviet Union A Very Short Introduction has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About The Soviet Union A Very Short Introduction Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including

classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely!
