In each chapter, you will learn programming concepts and apply them immediately as you build an application or enhance one from a previous chapter. Here are some of the topics covered: Dynamic interfaces with animation; Using the camera and photo library; User location and mapping services; Accessing accelerometer data; Handling multi-touch gestures; Navigation and tabbed applications; Tables and creating custom rows; Multiple ways of storing and loading data; Archiving Core Data; SQLite; Communicating with web services; ALocalization; Internationalization.
