Astrologers theorized that the movements and rotations of these heavenly bodies and constellations were an influential factor in predicting events and human behavioral traits. Thus the horoscope charts were designed based upon the premise of timing of a person's birth date and location. This book is an introduction into the zodiac signs, their significance and meanings, elements and symbolism. It includes unique personality guides for each sign, detailing characteristic traits, love relationships, and compatibility, professions, success, and special gifts. In this book, you will understand what a natal chart is and learn how to read charts for yourself and others. Understand the twelve astrological signs, their influences, and how they affect you. Learn about your astrological houses and how each sign affects them. Explore the ancient knowledge behind the lunar houses. Receive powerful insight about your destination and life purpose. By learning about everything associated with your zodiac sign, you can have better insight into your life and your purpose on earth. Believe it or not, your attitude towards life, the goals you set, all your dreams, and the choices you make are influenced to a certain degree by the zodiac you are born under. So learning more about it is the simplest way to discover more about yourself. **So Much Stuff, So Little Space** Susan Nations, Suzi Boyett, 2002 Organize your stuff and maximize your space. This inventive resource shows you how to create a supportive learning environment by setting up clearly defined spaces and user-friendly storage.
