*Make Science Fun: Experiments* Jacob Strickling, 2017-11-06 Make Science Fun 2 is intended for an older, more serious age group of 8-15. It is designed for children to do actual science experiments, not just science activities at home. Most science experiment books aren't experiment books at all. They mostly contain fun science activities which are fun to do, help learn science, but a fun science activity isn't always an experiment. A science experiment sets out to answer a question or solve a problem using a fair and controlled test. Make Science Experiments is a strong foundation on which to build student awareness of the importance of science in everyday lives.
