Crucially, you'll learn their failures and costly mistakes too. This isn't a success theater; it's an unvarnished truth about building AI income. Every chapter follows an aggressive thirty-day timeline transforming overwhelming possibilities into daily actions: Week one tool setup and niche selection, Week two minimum viable product, Week three testing and refinement, Week four launch and scale. The structure pushes you from zero to revenue through forced accountability and relentless momentum. Specialized sections address challenges facing regulated industries and creative professionals: Healthcare practitioners monetize expertise while maintaining ethical boundaries; Artists discover how AI enhances rather than replaces creativity; Educators transform teaching skills into automated course empires. Small business owners multiply revenue without multiplying headcount. This isn't about replacing human creativity with artificial intelligence; it's about amplifying existing advantages through strategic automation. The book teaches you to identify unfair advantages—whether life experience, professional network, or availability during odd hours—and systematically convert them into income-generating systems working while you sleep, parent, travel, or pursue passions. The comprehensive prompt library eliminates the learning curve, allowing immediate implementation. Action checklists ensure you're not just reading but doing. Real-world examples show both spectacular wins and cautionary tales, preparing you for every scenario. Join thousands discovering the AI gold rush isn't just for Silicon Valley insiders. Your demographic isn't a limitation; it's your secret weapon in the 72-billion AI economy. Stop watching. Start building. Your automated income stream awaits.

The discovery of two graves digs up past crimes and a dangerous killer trying to erase their tracks in this fast-paced K-9 thriller series set in Chicago. Another day, another find for dog trainer Cory Pratt's cadaver dogs Alice and Rex. This time a mass grave with three bodies and a second single grave over three decades old. A cold case that Cory's sibling and Chicago Police detective Crystal has to solve fast as the killer of the four men is still out there. While the identities of the men are determined one by one, the bodies are linked to an infamous crime which remains unsolved to this day. And with the killer trying to cover their tracks, other dangerous and lethal individuals start getting involved. Figuring out what happened all those years ago while trying to minimise the current body count. Cory, Crystal, and the dogs are hot on the heels of the killer. But their involvement puts them right on their list and in more danger than they bargained for.
