

Advanced Supervisory Skills

Leading the way in your industry

From front line management skills to proven supervisor leadership skills

Supervisors often report feeling “stuck in the middle”. This sandwich effect has a huge impact on productivity and morale. This course will help your supervisors find new and exciting challenges in their roles. Participants critique supervisory case studies and hypothetical issues from your industry. This course also introduces participants to a behavioural and attitudinal checklist to boost existing levels of employee engagement.

Methodology

A random sample of 79 Supervisors from your industry completed a survey to identify leadership gaps and/or weaknesses in the existing frontline management course. A team of organisational psychologists and leadership consultants extracted statistically significant data from the surveys to build this course.
