Thinking with the Poem Andrew R. Mossin,2024-12-15 Broad ranging and pluralistically investigative the essays in Thinking with the Poem document Rachel Blau DuPlessis's authorial interventions as a poet scholar and cultural critic steeped in the linguistic and political frames of her time. The writers included in this volume engage root level questions at the heart of DuPlessis's praxis as posed by her in a recent essay. What is a poem what is a poet what is an oeuvre what is the poetic Inventive and noncanonical these essays offer substantive responses to these and other questions providing new routes of inquiry into the poetry and poetics of this preeminent figure of new writing *The Depth of Wells* Maren C. Tirabassi,2000 A New England clergywoman's poetry reflects on the people she has met in urban suburban and rural churches in the region during the past 20 years Her poems are stories of people and events organized around the changing seasons of the year and the changing seasons of life from birth through childhood marriage old age and death **Poetry**

and the Question of Modernity Ian Cooper,2020-01-15 Interest in Martin Heidegger was recently reawakened by the revelations in his newly published Black Notebooks of the full terrible extent of his political commitments in the 1930s and 1940s The revelations reminded us of the dark allegiances co existing with one of the profoundest and most important philosophical projects of the twentieth century one that is of incomparable importance for literature and especially for poetry which Heidegger saw as embodying a receptiveness to Being and a resistance to the instrumental tendencies of modernity Poetry and the Question of Modernity From Heidegger to the Present is the first extended account of the relationship between Heidegger's philosophy and the modern lyric It argues that some of the best known modern poets in German and English from Paul Celan to Seamus Heaney and Les Murray are in deep imaginative affinity with Heidegger's enquiry into finitude language and Being But the work of each of these poets challenges Heidegger because each appeals to a transcendence taking place in language that is inseparable from the motion of encounter with embodied others It is thus poetry which reveals the full measure of Heidegger's relevance in redefining modern selfhood and poetry which reveals the depth of his blindness *The American Poetry Circle Anthology* ,1928 *The World's Great Religious Poetry* Caroline Miles Hill,1928
