**China's Foreign Investment Law in the New Normal** Shen Wei, 2022-12-29 This book analyzes China's new foreign investment law which came into force in January 2020. The new law implemented sweeping changes and overhauled China's foreign investment law regime of the last four decades. The foreign investment law aims to make the business environment more investor friendly and address some of the contentious issues between US and China in the ongoing trade war. The book explains how the law enhances regulatory transparency. It also outlines the new approval process that is the pre-establishment negative list system which has replaced the former approval system for foreign investment projects. The book also analyzes China's series of anti-sanction laws. This book will help give readers a better understanding of major changes and benefits under the new law and will be the first of its kind looking at the implications of this important law.

**Strengthening Sustainable Digitalization of Asian Economy and Society** Ordóñez de Pablos, Patricia, Almunawar, Mohammad Nabil, Anshari, Muhammad, 2024-03-27 In the ongoing evolution of Asia's economy and society there is a crucial need to explore innovative conceptual frameworks, empirical studies and case analyses. These endeavors aim to unravel the intricate relationship between digital transformation and the imperative for fostering a greener, more circular and climate neutral Asian economy. *Strengthening Sustainable Digitalization of Asian Economy and Society* explores the intersection between digital technologies, knowledge management and sustainable development. The book addresses the challenges and opportunities the digital age poses, examining how advanced information technologies including artificial intelligence, IoT and machine learning coupled with practical knowledge management can catalyze a transformative journey. *Strengthening Sustainable Digitalization of Asian Economy and Society* unravels how these digital tools and solutions impact the realization of the Sustainable Development Goals (SDGs) by 2030, offering invaluable insights for academics, researchers, industry players, policymakers and stakeholders. This book emphasizes the ASEAN region, providing an understanding of the regional nuances in the digital transition by presenting comparative regional studies including Asia, Europe, the USA, Latin America, Africa and the Gulf Region.

**Internet Memes and Copyright Law** Brian Chun Lok Leung, 2025-09-30 This book explores the intricate relationship between copyright law and internet meme culture, challenging an assumption that copyright is a barrier to digital creativity. Using the lens of internet memes to analyse copyright law in the context of participatory remix culture, the book confronts a common perception that copyright is the destroyer of internet memes on social media platforms. Following the European Union's Copyright Directive, widely known as the Meme Ban, this book critically examines whether copyright might instead be reimagined to foster rather than inhibit re-creations that define internet meme culture. The book argues that this culture directly challenges copyright's core assumptions and proposes a new holistic approach to copyright that distinguishes between traditional and emergent forms of creative processes. Arguing for a flexible interpretation of copyright that limits private proprietary rights in the case of internet memes, it provides a legal framework to support socio-cultural

discourse without undermining copyright's foundational principles. Covering core copyright concepts such as authorship, idea, expression, originality, fair dealing, and user rights, the book provides a compelling argument as to how copyright can adapt to the digital age as a protector of cultural expressions, ensuring that internet memes are not only preserved but celebrated. The book will be of interest to researchers in the field of copyright law, the law of emerging technologies, and intellectual property law.

**International Marketing** Michael A. Merz, 2025-06-04 This comprehensive text provides students with a solid foundation in international marketing theory, research, and practice. Fully updated throughout, the book covers all the latest trends and topics, including e-commerce, digitalization, corporate sustainability, business ethics, corporate social responsibility, cryptocurrency, and the broader political and economic context. New international case studies and mini cases from the US, Europe, China, and Japan are incorporated alongside enhanced pedagogy to structure learning, such as chapter objectives, summaries, and discussion questions. Placing a unique emphasis on the importance of academic research, all academic references and marketing theories have also been updated. Demonstrating the complexities of marketing on a global scale, this well-regarded text should be core reading for advanced undergraduate and postgraduate students of international and global marketing, marketing management, and strategic marketing. Online resources include chapter-by-chapter PowerPoint slides, a test bank, cases, and discussion questions, and videos to accompany specific topics.

*Proceedings of The 11th European Conference on Social Media* Susana Pinto, 2025-06 The European Conference on Social Media (ECSM) is a well-established academic conference held annually for over a decade with a focus on advancing research and dialogue around social media. The primary aim of ECSM is to provide a platform for scholars, researchers, practitioners, and industry professionals to share and discuss their findings on the multifaceted impacts of social media. The conference emphasises the importance of understanding how social media influences various sectors, including society, education, business, and governance.

Cyber Law and Ethics Mark Grabowski, Eric P. Robinson, 2021-07-12 A primer on legal issues relating to cyberspace, this textbook introduces business policy and ethical considerations raised by our use of information technology. With a focus on the most significant issues impacting internet users and businesses in the United States of America, the book provides coverage of key topics such as social media, online privacy, artificial intelligence, and cybercrime, as well as emerging themes such as doxing, ransomware, revenge porn, data mining, e-sports, and fake news. The authors' experience in journalism, technology, and legal practice provide readers with expert insights into the nuts and bolts of cyber law. *Cyber Law and Ethics: Regulation of the Connected World* provides a practical presentation of legal principles and is essential reading for non-specialist students dealing with the intersection of the internet and the law.

**The Fourth Intelligence Revolution** Anthony Vinci, 2025-10-28. A former senior intelligence officer reveals how espionage is being transformed by a new global intelligence race driven by AI and competition with China, and how this impacts all of our lives. The new global intelligence competition has brought espionage into our workplaces and our living rooms. Adversaries like China, Iran, and Russia have realized that the human element is the weakest link in our industrial and political infrastructure. As a result, they target all of us, stealing our financial data and medical records, eavesdropping on our conversations, and using platforms like TikTok and Hollywood movies to influence our opinions. The Fourth Intelligence Revolution reveals how the undercover adventures of World War II, the spy versus spy confrontations of the Cold War, and the find, fix, and finish counterterrorism missions after 9/11 have given way to the most dangerous period of espionage yet. This eye-opening account exposes how intelligence now permeates every corner of society, from economic espionage and genetic data gathering to information operations targeting children through AI chatbots, even extending to reconnaissance on the far side of the moon. Both a warning and a call to action, The Fourth Intelligence Revolution suggests that we are all, in essence, becoming intelligence officers, and that citizens have both the power and responsibility to reclaim intelligence to safeguard and strengthen our democracy.

**TikTok Marketing for Viral Sales** Anastasia Olson, 2020-12-05. TikTok is the fastest growing social media app in the world, and one of the fastest apps to reach a billion subscribers in history. TikTok has also become one of the world's leading platforms for creativity, fun, and business. It offers an unprecedented opportunity for businesses to advertise their products to people. In reality, it is much more difficult and complicated to become successful. This is because TikTok's algorithm rewards content in a totally different way from other social media apps. Going viral on TikTok requires that TikTok's algorithm favors your content above those of the many millions on the app. So, how exactly can you succeed on TikTok? How can you make your contents go viral? How can you acquire thousands of followers? And how can you convert these followers to loyal customers for your business? This book provides all the answers and more. It is a thoroughly researched guide.
