## **The Dead Zone Signet:**

**The dead zone** Stephen King, 1968      **DEAD ZONE** , 1979      *Damned If You Do* Margaret S. Hrezo, John M. Parrish, 2010-01-01 Problems of individual moral choice have always been closely bound up with the larger normative concerns of political theory There are several reasons for this continuing connection First the value conflicts involved in private moral choice often find themselves reproduced on the public stage for example states may find it difficult to do right by both justice and mercy in much the same way individuals do Second we frequently find conflicts among the values at stake in individual life and public life such that the moral choice we must make is between private and public goods Loosely speaking choices which express these conflicts are what philosophers call moral dilemmas choices in which no matter what one does one will be forfeiting some important moral good in which wrongdoing is to some degree inescapable in which one is perhaps literally damned if one does and damned if one doesn't The eight essays collected in this volume explore the philosophical problem of moral dilemmas as that problem finds expression in ancient drama classic and contemporary novels television film and popular fiction They consider four main types of dilemmas In the first section the authors examine dilemmas associated with political stability and regime change as expressed in the HBO television series *Deadwood* and in Stephen King's novels and short stories The second section confronts dilemmas associated with public leadership considering the ethical conflicts in Aeschylus's classical dramas *The Suppliants* Tolkien's *Lord of the Rings* and in the contemporary FOX television series *24* In the volume's third section the authors examine dilemmas of institutional evil specifically slavery as they emerge in Harriet Beecher Stowe's classic novel *Uncle Tom's Cabin* and in J K Rowling's *Harry Potter* novels Finally the collection considers dilemmas of community and choice in Toni Morrison's novel *Paradise* and in the contemporary film *A Simple Plan*

*Teaching Stephen King* A. Burger, 2016-04-08 *Teaching Stephen King* critically examines the works of Stephen King and several ways King can be incorporated into the high school and college classroom The section on *Variations on Horror Tropes* includes chapters on the vampire the werewolf the undead monster and the ghost The section on *Real Life Horror* includes chapters on King's school shooting novella *Rage* sexual violence and coming of age narratives Finally the section on *Playing with Publishing* includes chapters on serial publishing and *The Green Mile* e books and graphic novels

Holland-Toll,2001 This book does nothing less than redefine the very genre of horror fiction calling into question the usual conventions motifs and elements Unlike many critics of this genre Linda Holland Toll sees dis affirmative horror fiction acting neither to soothe fears nor reduce them to the vicarious thrills n chills mode but as intensifying the fears inherent in everyday life     Watching the World Die Mike Bogue,2023-10-23 During the 1980s popular fear of World War III spurred moviemakers to produce dozens of nuclear threat films Categories ranged from monster movies to post apocalyptic adventures to realistic depictions of nuclear war and its immediate aftermath Coverage of atomic angst films isn t new but this is the first book to solely analyze 1980s nuclear threat movies as a group Entries range from classics such as *The Day After* and *WarGames* to obscurities such as *Desert Warrior* and *Massive Retaliation* Chronological coverage of the 121 films released between 1980 and 1990 includes production details chapter notes and critical commentaries     **Your Reading** Jane Christensen,National Council of Teachers of English. examines the essential ingredients that go into the making of a horror film the variations that are found within the genre and the links between the best horror cinema and Artaud's Theatre of Cruelty Echoing Artaud Rockett argues that human beings are attracted to horror in films because of an unconscious craving for a reality in which the demonic supernatural acts as a living whirlwind devouring the darkness and bringing viewers closer to the transcendence they are actually seeking The final chapter shows how the finest works in the horror genre achieve this underlying aim He discusses filmmakers such as Roman Polanski who have been able to provide the realism and artistic quality that contemporary audiences demand while preserving the ambiguity and terror necessary to experience the power of transcendent force Rockett's skillful and imaginative exploration of the subject will be appreciated by scholars and general readers concerned with popular culture film literature drama and contemporary social issues
