The Rise of the Curator Class Steffon Davis, 2019-03-14. Pairing big ideas in marketing with the popular activity of content curation. The Rise of the Curator Class positions curation as a humanization movement that is restructuring the internet. Curation is set to overturn the 2.2 trillion global creative industry revolutionizing how we create, market, and discover content. In the era of content overload and fake news in which everything to buy, listen to, read or watch is available online, there is one group of people who have learned to thrive in this climate of superabundance: the curator class, whose influence and power grows as more people look to them as guides. This new curator class is rewriting traditional curation, tackling the overload and making sense of it for others. In the past, curation was available to an elite few. Now, internet platforms such as Pinterest, Spotify, and Twitter empower hundreds of millions of people to curate their ideas for anyone who may be interested, revolutionizing how content is marketed and sold. The Rise of the Curator Class explains how curation is disrupting internet commerce as consumer trust moves farther away from traditional brands and closer to the curators who lead tastes, and it equips readers to think critically about how curation can work for them.

[#Share](#) Natalie T. Wood, Caroline K. Muñoz, 2017-02-08. Each day, millions of consumers venture online to search and exchange product information and to seek out and share opinions. Electronic word of mouth (eWOM) communication has been shown to influence consumer actions across a variety of industries (King, Racherla, and Bush, 2014). A significant portion of eWOM occurs on social media platforms. Whether it is a status update to Facebook of an upcoming vacation, a picture of a laundry room makeover on Pinterest, or a YouTube video discussing the features on the new iPhone.

consumers are turning to a variety of social platforms to make everyday purchasing decisions easier for themselves and others. Indeed social word of mouth (sWOM) a subset of eWOM has incredible reach with the potential to influence over two billion active social media consumers. The purpose of this book is to examine the influence of sWOM and provide guidance on how to operationalize its growing power. The goal of this book is to bring together industry best practices and academic research to help construct social media content that speaks with your brand voice, stimulates engagement, inspires consumers to share, and complies with industry and federal guidelines. Each chapter highlights a key area of sWOM that will further your understanding and provide actionable information to assist you in mobilizing positive sWOM for your company.

Grow Up and Vote for Trump Eddie Scarry, 2020-09-18 Presidential elections divide Americans in a lot of ways by political party, ideology, and religion. But now there's a new way. They separate the adults from the perpetual children who have come to dominate much of our national discourse. You see it in the hysterical news coverage of the coronavirus, the lawless rioting of the Black Lives Matter moment, and the endless persecution of a president who Democrats react to with the rage of a toddler. As the 2020 presidential election approaches, the choice becomes clear: either join them all as another child or grow up and vote to reelect Donald Trump.
