The Piracy Years Holger Briel, Michael High, Markus Heidingsfelder, 2023-06-15 The Piracy Years Internet File Sharing in a Global Context is the first collection to provide an overview of digital piracy's recent past and its potential futures. Combining research essays, interviews, and overviews, the volume brings together leading scholars and infamous digital pirates from China, Germany, the Netherlands, Nigeria, Russia, the United Kingdom, and the United States. In June 1999, the peer-to-peer P2P file sharing website Napster transformed the availability of online content, but the site was quickly sued into oblivion. Despite the highly publicised shutdowns of a number of P2P websites, many continue to thrive, and digital piracy has become a global phenomenon. This book argues that any future media theory and research will have to contend with such web practices remaining an integral and politically formative part of the Internet. Offline and online piracies thrive on technological affordances in opposition to corporate efforts in music, film, publishing, and academia to label them as threatening to the economy and society. Therefore, this book explores piracy as a phenomenon navigating the conventions, norms, and boundaries of legality in digital cultures. Pirate networked sociabilities work within and outside the fringes of market economy through the lens of institutional and discursive power. By creating new ways that keep society moving and from stagnation, they ensure its continued existence, including the survival of the very areas they attack. The Piracy Years is an essential resource for researchers, postgraduate students, and anyone interested in the global spread and ever-increasing importance of digital piracy.

Music Artist Managers Guy Morrow, 2024-07-05 To what extent is it possible to do good work in music artist management Drawing upon original research this shortform book explores and evaluates motivation remuneration and equity stakes within the music industries The author ponders the apparent managerial exodus from the music industries and whether this brain drain could be addressed by providing better remuneration via equity Based on evidence from Australia the book illuminates how pay in this sector has remained flat despite increasing responsibility Emphasising the quality of the subjective experience of music artist managers this concise book provides readers with new insights into the important role managers play in the music business The result is a book that will be useful reading for academics and reflective practitioners

Streaming Sounds Michael James Walsh, 2024-03-29 In a time when music streaming has become the dominant mode of consuming music recordings this book interrogates how users go about listening to music in their everyday lives in a context where streaming services are focused on not only the circulation of music for users but also the circulation of user data and attention Drawing insights directly from interviews with users music streaming is explained as never merely a neutral technology but rather one that seeks to actively shape user engagement Users respond to streaming platforms with some relishing these aspects that provide music to be drawn into daily activities while others show signs of resistance It is this tension that this book explores This unique and accessible study will be ideal reading for both scholars and students of popular music studies communication studies sociology media and cultural studies

The Death of the Artist William Deresiewicz, 2020-07-28 A deeply researched warning about how the digital economy threatens artists lives and work the music writing and visual art that sustain our souls and societies from an award winning essayist and critic There are two stories you hear about earning a living as an artist in the digital age One comes from Silicon Valley There has never been a better time to be an artist it goes If you've got a laptop you've got a recording studio If you've got an iPhone you

ve got a movie camera And if production is cheap distribution is free it s called the Internet Everyone s an artist just tap your creativity and put your stuff out there The other comes from artists themselves Sure it goes you can put your stuff out there but who s going to pay you for it Everyone is not an artist Making art takes years of dedication and that requires a means of support If things don t change a lot of art will cease to be sustainable So which account is true Since people are still making a living as artists today how are they managing to do it William Deresiewicz a leading critic of the arts and of contemporary culture set out to answer those questions Based on interviews with artists of all kinds *The Death of the Artist* argues that we are in the midst of an epochal transformation If artists were artisans in the Renaissance bohemians in the nineteenth century and professionals in the twentieth a new paradigm is emerging in the digital age one that is changing our fundamental ideas about the nature of art and the role of the artist in society *The Gig Economy* Brian Dolber,Michelle Rodino-Colocino,Chenjerai Kumanyika,Todd Wolfson,2021-05-30 This edited collection examines the gig economy in the age of convergence from a critical political economic perspective Contributions explore how media technology and labor are converging to create new modes of production as well as new modes of resistance From rideshare drivers in Los Angeles to domestic workers in Delhi from sex work to podcasting this book draws together research that examines the gig economy s exploitation of workers and their resistance Employing critical theoretical perspectives and methodologies in a variety of national contexts contributors consider the roles that media policy culture and history as well as gender race and ethnicity play in forging working conditions in the gig economy Contributors examine the complex and historical relationships between media and gig work integral to capitalism with the aim of exposing and ultimately ending exploitation This book will appeal to students and scholars examining questions of technology media and labor across media and communication studies information studies and labor studies as well as activists journalists and policymakers *MKTG4* Charles W.
