**International Trade in Services** Olivier Cattaneo,2010 International trade in services also provides an

assessment of how policy makers can further bolster their service industries by leveraging the changes prompted by technological advancements. The book provides policy recommendations that include the reduction of barriers to services trade across all sectors and the promotion of health and environment related development policies that should be promoted in parallel with a burgeoning services market. The first recommendation is considered the most important because it focuses on the need to ensure trade openness which helps ensure the access to services and promotes the quality of services provision through foreign and domestic competition. Moreover the issue of temporary movement of labor is another focus of this book given that it is one of the most important means of service exports for developing countries. This is an issue that is considered technically complex and politically sensitive because of its political and security implications. The book examines mechanisms that have been used by various countries to liberalize the temporary movement of persons and concludes that regardless of the negotiating forum multilateral regional or bilateral the policy making results on temporary movement of labor are so far modest and limited to a small range of categories. However it proposes alternative ways to move forward that require further analysis by countries and relevant international organizations including the World Bank.

**World Trade Flows, 1970-1992, with Production and Tariff Data** Robert C. Feenstra, Robert E. Lipsey, Harry Bowen, 1997 This paper describes two databases dealing with world bilateral trade flows the World Trade Database WTDB assembled by Statistics Canada which contains bilateral trade flows for all countries over 1970 1992 classified according to the Standard International Trade Classification Revision 2 with some modification and the Compatible Trade and Production COMTAP database assembled by the Organization for Economic Cooperation and Development OECD which contains production of manufactured goods in OECD countries and bilateral trade flows between these countries and all their trading partners over 1970 1985 classified according to the International Standard Industrial Classification Revision 2. These databases are available to academic users on the CD ROM. Also contained on the CD ROM is information on country factor endowments, tariff and non tariff barriers for selected countries and input output tables for the United Kingdom and the United States. The WTDB database is made available under a license with Statistics Canada the terms of which are described herein and the COMTAP database is made available by permission of the OECD. A revised version of this data set is available on CD ROM.
