## Goodreads Choice Guide:

Crash Course in Readers' Advisory Cynthia Orr,2014-12-05 One of the key services librarians provide is helping readers find books they'll enjoy. This crash course will furnish you with the basic practical information you need to excel at readers' advisory RA for adults and teens. The question can you recommend a good book can be one of the most daunting you face notwithstanding the fact that recommender tools are ubiquitous. Often uncertainty arises because although librarians are called on to perform such services daily readers' advisory is a skill set in which most have no formal training. This guide will remedy that. It is built around understanding books, reading, and readers, and will quickly show you how to identify reading preferences and advise patrons effectively. You'll learn about multiple RA approaches such as genre appeal features and reading interests and about essential tools that can help with RA. Plus you'll discover tips to help you keep up with this ever-changing field. There is no other professional book that covers the full spectrum of skills needed to perform the RA service that is in such great demand in libraries of all kinds. Helping readers find what they want is a sure way to serve patrons and build your library's brand. You will come away from this easy-to-understand crash course with the solid background you need to do both.

Global Literary Studies Diana Roig-Sanz, Neus Rotger,2022-12-05 While the very existence of global literary studies as an institutionalised field is not yet fully established, the global turn in various disciplines in the humanities and the social sciences has been gaining traction in recent years. This book aims to contribute to the field of global literary studies with a more inclusive and decentralising approach. Specifically, it responds to a double demand: the need for expanding openness to other ways of seeing the global literary space by including multiple literary and cultural traditions and other interdisciplinary perspectives in the discussion, and the need for conceptual models and different case studies that will help develop a global approach in four key avenues of research: global translation flows and translation policies, the post-1989 novel as a global form, global literary environments, and a global perspective on film and cinema history.

Gathering contributions from international scholars with expertise in various areas of research, the volume is structured around five target concepts: space, scale, time, connectivity, and agency. We also take gender and LGBTQ perspectives as well as a digital approach.

Columbine Dave Cullen,2009-04-06 Ten years in the works, a masterpiece of reportage, this is the definitive account of the Columbine massacre, its aftermath, and its significance from the acclaimed journalist who followed the story from the outset. The tragedies keep coming. As we reel from the latest horror, so begins a new epilogue illustrating how Columbine became the template for nearly two decades of spectacle murders. It is a false script seized upon by a generation of new killers. In the wake of Newtown, Aurora, and Virginia Tech, the imperative to understand the crime that sparked this plague grows more urgent every year. What really happened April 20, 1999? The horror left an indelible stamp on the American psyche, but most of what we know is wrong. It wasn't about jocks, Goths, or the Trench Coat Mafia. Dave Cullen was one of the first reporters on scene and spent ten years on this book, widely recognized as the definitive account. With a keen

investigative eye and psychological acumen he draws on mountains of evidence insight from the world's leading forensic psychologists and the killers own words and drawings several reproduced in a new appendix Cullen paints raw portraits of two polar opposite killers They contrast starkly with the flashes of resilience and redemption among the survivors Expanded with a New Epilogue    **Subject Guide to Books in Print** ,1991    **Good Housekeeping Magazine** ,2008    **Kansas**
