The benefits of Collagen

Collagen is the most abundant protein in the body, and it plays a crucial role in maintaining the structure and function of various tissues, including skin, bones, and cartilage. As we age, our body's natural production of collagen decreases, leading to signs of aging such as wrinkles, sagging skin, and joint pain. Supplementing with collagen can help replenish the body's stores and provide numerous health benefits.

I. , 2024-05-01 Knowing your own shady side is the key to handling other people s drama Carl Jung paraphrased Carl Jung is not easy to read That s why I came up with this book Its only purpose is to simplify Jung s ideas so you can better understand them Here s one of the easier paragraphs from Psychological Types to illustrate the general complexity of how Jung writes Whereas the Extravert continually appeals to what comes to him from the object the Introvert relies principally on what the sense impression constellates in the subject The difference in the case of a single apperception may of course be very delicate but in the total psychic economy it makes itself felt in the highest degree particularly in the effect it has on the ego In case you didn t know Psychological Types is the very foundation of the Myers Briggs Type Indicator In fact calling people Introverts and Extraverts was Jung s original idea So if you re already out there nerding out on MBTI but haven t read the original literature yet here s your chance This book is

pretty much a literal adaptation of the original paraphrased to be in Gen Z slang or more modern and less formal language It is a nice introduction for beginners as well as younger people who want to grasp the foundation of MBTI and the 16 personality types People who are well familiar with Carl Jung might find this read entertaining What makes this book so amazing for the right people Much shorter sentences Much shorter paragraphs Easy choice of words CAPS for emphasis Gen Z compatible vocabulary For the sake of consistency I've also decided to deviate from certain grammatical and stylistic standards Brace yourselves for one sentence paragraphs and sentences starting with a conjunction We're trying to cater to Gen Z here Enjoy the book Check out my Youtube channel BasicMBTI And please don't be shocked by what you are about to read
