Style And Substance Style And Substance:

The Substance of Style Virginia Postrel, 2009-03-17 Whether it's sleek leather pants or a shiny new Apple computer or a designer toaster we make important decisions as consumers every day based on our sensory experience. Sensory appeals are everywhere and they are intensifying radically changing how Americans live and work. The twenty-first century has become the age of aesthetics and whether we realize it or not this influence has taken over the marketplace and much more. In this penetrating keenly observed book Virginia Postrel makes the argument that appearance counts that aesthetic value is real. Drawing from fields as diverse as fashion, real estate, politics, design, and economics Postrel deftly chronicles our culture's aesthetic imperative and argues persuasively that it is a vital component of a healthy forward-looking society. Intelligent, incisive, and thought-provoking *The Substance of Style* is a groundbreaking portrait of the democratization of taste and a brilliant examination of the way we live now.

A Rhetoric of Style Barry Brummett, 2008-07-07 Exploring style in a global culture. In *A Rhetoric of Style* Barry Brummett illustrates how style is increasingly a global system of communication as people around the world understand what it means to dress a certain way, to dance a certain way, to decorate a certain way, to speak a certain way. He locates style at the heart of popular culture and asserts that it is the basis for social life and politics in the twenty-first century. Brummett sees style as a system of signification grounded largely in image, aesthetics, and extrarational modes of thinking. He discusses three important aspects of this system: its social and commercial structuring, its political consequences, and its role as the chief rhetorical system of the modern world. He argues that aesthetics and style are merging into a major engine of the global economy and that style is becoming a way to construct individual identity as well as social and political structures of alliance and opposition. It is through style that we stereotype or make assumptions about others: political identities, their sexuality, their culture, and their economic standing. To facilitate theoretical and critical analysis Brummett develops a systematic rhetoric of style and then demonstrates its use through an in-depth exploration of gun culture in the United States. Armed with an understanding of how this rhetoric of style works methodologically, students and scholars alike will have the tools to do their own analyses. Written in clear and engaging prose *A Rhetoric of Style* presents a novel discussion of the workings of style and sheds new light on a venerable and sometimes misunderstood rhetorical concept by illustrating how style is the key to constructing a rhetoric for the twenty-first century.

Product Strategy and Corporate Success C B Rao, 2019-10-17 Product strategy is the key driver of business strategy and corporate success. This book brings out several important aspects of product strategy drawing upon examples from the Indian automobile industry which is verily the bellwether of the Indian economy. The automobile industry is not only a strategic industry economically but also an instructive industry intellectually. The industry is the cradle of modern management and is a synthesis of various functional strategies. The growth of the automobile industry or for that matter any consumer-facing industry lies in its ability to maintain a continuous pipeline of new and innovative products substantive in functionality and

stylistic in appearance The automobile industry provides the perfect backdrop for discussing products as the core of the corporate business strategy The global automobile industry including the Indian automobile industry is at an inflection point with portends of an unprecedented transformation The drivers of this transformation are already seen in terms of connected vehicles autonomous mobility electric vehicles and digital technologies The book through its eighty chapters demonstrates the synergistic interplay between technology and business strategy and execution innovation and inventiveness enterprise and regulation indigenization and globalization structure and process resourcing and spend and leadership and management This interplay would determine India s ability to become a major player in this transformation This book will be of interest to industry professionals policy makers the academic community and the general public **Style and Substance** Joseph
