Chicago Telephone Directory Illinois Bell Telephone Company,2002 *Loan Forgiveness and Loan Repayment Programs* Virgil Davidson,2019-04 Student loan forgiveness and loan repayment programs provide borrowers a means of having all or part of their student loan debt forgiven or repaid in exchange for work or service in specific fields or professions or following a prolonged period during which their student loan debt burden is high relative to their income In both loan forgiveness and loan repayment programs borrowers typically qualify for benefits by working or serving in certain capacities for a specified period or by satisfying other program requirements over an extended term Upon qualifying for benefits some or all of a borrowers student loan debt is forgiven or paid on his or her behalf Some of these programs are intended to support goals such as providing a financial incentive to encourage individuals to enter into and or remain in a particular profession or public service One such federal program that has received considerable attention in recent years is the Public Service Loan Forgiveness PSLF program The PSLF program forgives borrowers federal student loans after they make at least 10 years of qualifying payments while working for certain public service employers Repay As You Earn Philip G. Schrag,2001-11-30 In 1993 Congress created a student loan repayment plan intended to enable high debt graduates to accept low income public service jobs by reducing their loan payments and eventually forgiving part of their debts But this Congressional initiative only helps those with catastrophically low incomes It has failed to attract many users because as implemented through regulations of the U S Department of Education it requires payment over too long a period 25 years before forgiveness Many

students go to graduate and professional schools in pursuit of careers in public service But they often must borrow 100 000 or more to finance their education Their loan repayment obligations become so high that they can no longer afford to follow their ideals and they abandon their plans to have public service careers and seek employment with corporations or firms offering high salaries The income contingent repayment plan should have appealed to would be public interest lawyers who are among the graduates with the highest debt to income ratios but the plan has failed them and Schrag explores why and how the plan should be reformed either by Congress or by the federal administration
