What if you could understand how the brain works and use that knowledge to regain control over your habits and lead a more fulfilling life? Sex, shopping, eating, social media, drugs, and gambling are just some of the things that can trigger a release of dopamine, a neurotransmitter in the brain that is involved in the brain's reward system. The last part will help you to make the change with the help of sound psychological techniques. By the end of this guide, Dr. Hronis will help you feel empowered to make both pleasurable and purposeful choices, leading to a full, rich, and meaningful life.
