This Isn't What I Expected 2nd Edition Overcoming Postpartum Depression:

This Isn't What I Expected [2nd edition] Karen Kleiman, Valerie Raskin, 2013-10-29 Pregnancy Parenting 1 in 5 postpartum women suffer from disorders on the postpartum spectrum another 20-30% of new mothers deal with above average anxiety. First published in 1994 this go-to resource for postpartum depression has been completely revised and updated, helping women and their partners sort through all the noise and myths so they can focus on getting the help they need.

The Birth of the Modern Mum Heather Irvine, 2014-06-01 So much of modern motherhood is targeted at looking good even when you feel crap and making your baby look good even though he or she won't settle or feed or stop crying all in the shortest time frame possible. The Miranda Kerr and Heidi Klums of the world make it look easy to have a baby and get back on the runway 2 minutes later with a flat stomach, silky hair and glowing skin. What about the mothers who get acne from pregnancy or whose hair turns grey or can't loose their baby belly in 10 seconds flat? This book is for them. Heather Irvine, Clinical Psychologist and head of the R E A D Clinic, appropriately balances clinical expertise with common sense mother appeal for mothers struggling in their baby's first year. The Birth of the Modern Mum looks at the serious issues such as Postnatal Depression (PND), relationship changes and physical changes that mothers face in their first year with a new baby, while still providing light-hearted quick fixes that any mother can implement in a short period of time. Heather taps into the realistic image of motherhood, leaving behind the doldrums of medical professionally written books. The Birth of the Modern Mum is a book that any mother can be proud of. It can be placed on the coffee table right next to the Women's Day or Famous magazines without shame. Should guests drop by, because whilst the book tackles the factors that underlie PND and related cognitive and affective dysfunction, no mother wants to have a heavy PND title book sitting around in her lounge room. And let's face it, once a book is put away on the bookshelf in the life of a busy mum, it's unlikely to come out again.

What About Us? Karen Kleiman, 2021-09-14 The demands of a new baby can test a couple's relationship like nothing else. When we factor in sleep deprivation, hormonal changes, depression and anxiety and different personalities, life with a newborn can feel a bit CRAZY. Couples tend to misinterpret this rough patch as a sign that something is wrong with the relationship, but when couples take steps toward open communication and safeguard their relationship, they can face everything new parenthood throws at them together. From the team behind the bestselling Good Moms Have Scary Thoughts comes a new guidebook of short essays, comics and quick journal prompts about the stressful newborn stage, the struggles that so many new parents face and the skills you need to tap into your strength as a couple.

Hello Baby! Everything new mums need to know about life with baby Heather Irvine, 2017-05-15 So much of modern motherhood is targeted at looking good even when you feel crap and making your baby look good even when he or she won't settle or feed or stop crying all in the shortest time possible. Hello Baby uncovers all the myths of perfection new mums see on Instagram and provides down-to-earth, no-nonsense advice about everything you need to know about your baby's first year.
