# COMPARE & CONTRAST

Directions: Read both sections below. Compare and contrast the two animals.

## DOLPHINS

A dolphin is a warm-blooded mammal that lives in the ocean. Dolphins give birth to babies that are called calves. They also breathe oxygen. A dolphin must live near the surface where it can breathe air. Dolphins are known to be vocal and social animals. They swim in pods where they come together with their mates to travel. Dolphins have a dorsal fin on their back, two fins on their side, and a tail. They also have a blowhole on top of their body. Their tail is horizontal and is used to swim in an up-and-down motion. A dolphin will eat things like fish, crustaceans, squid and shrimp.

## SHARKS

Sharks are cold-blooded fish that live in the ocean. They spend their whole lives deep underwater. Like other fish, sharks have gills to remove oxygen from the environment. Sharks prefer to live and hunt alone. They do not like to socialize with other sharks. Sharks have a dorsal fin on their back, two fins on their side, and a tail. They also have gills on the side of their body. Their tail is vertical and is used to swim in a side-to-side motion. A shark will eat things like fish, crustaceans, squid, shrimp, other sharks, marine mammals, and plankton.

Integrating Literacy Naturally Kim Pinkerton, Amelia Hewitt, 2020-09-01 Integrating Literacy Naturally is a guide for nurturing a love of literacy in both teachers and young children More than a hundred children s book titles and other resources serve as springboards for cultivating that love and meeting individual literacy needs in developmentally appropriate ways And educator spotlight stories show how theories move to practice Pinkerton and Hewitt draw on their love of literacy and over four decades of combined experience to help readers navigate individualized instruction purposeful play literacy integration classroom libraries and a reimagined workshop approach Examples for how to do all of this with children s texts are presented throughout the book Eight guiding principles provide an easy path to becoming an intentional authentic teacher who focuses on the individual needs of children and avoids one sized literacy instruction The principles grew from heart to heart conversations the authors had about joyful reading and writing experiences being reduced to worksheets and rote memorization in many classrooms This book moves teachers far away from drill the skill literacy Use it as a guide on your path to making literacy learning both playful and intentional in the early childhood classroom GMAT Prep Plus 2022-2023 Kaplan Test Prep, 2021-12-07 6 practice tests proven strategies online Cover **The Education of d/Deaf and Hard of Hearing Children** Peter V. Paul, 2020-02-12 A significant number of d Deaf and hard of hearing d Dhh children and adolescents experience challenges in acquiring a functional level of English language and literacy skills in the United States and elsewhere To provide an understanding of this issue this book explores the theoretical underpinnings and synthesizes major research findings It also covers critical controversial areas such as the use of assistive hearing devices language and literacy assessments and inclusion Although the targeted population is children and adolescents who are d Dhh contributors found it necessary to apply our understanding of the development of English in other populations of struggling readers and writers such as children with language or literacy disabilities and those for whom English is not the home language Collectively this information should assist scholars in conducting further research and enable educators to develop general instructional guidelines and strategies to improve the language and literacy levels of d Dhh students It is clear that there is not a one size fits all concept but rather research and instruction should be differentiated to meet the needs of d Dhh students It is our hope that this book stimulates further theorizing and research and most importantly offers evidence and reason based practices for improving language and literacy abilities of d Dhh students International Guide to Student Achievement John Hattie, Eric M. Anderman, 2012 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people

what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs

**Educational Assessment for the Elementary and Middle School Classroom** Gary D. Borich, Martin L. Tombari, 2004  
Brief and practical this popular book focuses on what classroom assessment is and how to do it and bridges the gap between testing a learner's knowledge of particular information and measuring his or her ability to transfer knowledge and think strategically Coverage encompasses all of the issues surrounding the use of classroom assessments validity reliability bias impact through targeted discussions that address everything prospective teachers need to know completely yet succinctly The authors offer a comprehensive menu of techniques for assessing not only what learners know but also how they think how they perform and how they apply what they know within authentic real world contexts For individuals administering tests and implementing other measurements tools for the assessment of students in elementary and middle schools
