Things Hidden Since The Foundation Of The World:

Things Hidden Since the Foundation of the World René Girard, Jean-Michel Oughourlian, Guy Lefort, 2003-01-01
Presenting an original global theory of culture Girard explores the social function of violence and the mechanism of the social scapegoat His vision is a challenge to conventional views of literature anthropology religion and psychoanalysis Rene Gerard is the Andrew B Hammond Professor Emeritus of French Language Literature and Civilization at Stanford University USA

Things Hidden Since the Foundation of the World René Girard, Jean-Michel Oughourlian, Guy Lefort, 1987 This is the single fullest summation of the ideas of one of the most eminent and controversial cultural theorists of our time Things Hidden Since the Foundation of the World René Girard, 2003 *How Violence Works* John Babak Ebrahimian, 2025-05-15
This book uncovers how violence stems from our desires It explores why we compete envy and sometimes escalate conflicts into war From wanting material things such as cars or prestigious jobs to seeking power or influence desire can often lead to violence The book shows how this plays out in major historical events such as 9 11 and the two World Wars Drawing from literature pop culture psychology mythology and religion it explains how desire is always mimetic or imitative We desire what another person wants While mimetic desire can be a constructive mechanism it is also capable of creating violent mechanisms such as the scapegoat mechanism which we have seen throughout history In looking at Jesus Christ s passion and resurrection we see how he uncovered the scapegoat mechanism and along with his teachings offered a viable path to peace and an end to violence **Saving God** Mark Johnston, 2011-07-11 A bold and persuasive case for abandoning old religions and still believing in God In this book Mark Johnston argues that God needs to be saved not only from the distortions of the undergraduate atheists Richard Dawkins Christopher Hitchens and Sam Harris but more importantly from the idolatrous tendencies of religion itself Each monotheistic religion has its characteristic ways of domesticating True Divinity of taming God s demands so that they do not radically threaten our self love and false righteousness Turning the monotheistic critique of idolatry on the monotheisms themselves Johnston shows that much in these traditions must be condemned as false and spiritually debilitating A central claim of the book is that supernaturalism is idolatry If this is right everything changes we cannot place our salvation in jeopardy by tying it essentially to the supernatural cosmologies of the ancient Near East Remarkably Johnston rehabilitates the ideas of the Fall and of salvation within a naturalistic framework he then presents a conception of God that both resists idolatry and is wholly consistent with the deliverances of the natural sciences Princeton University Press is publishing Saving God in conjunction with Johnston s forthcoming book Surviving Death which takes up the crux of supernaturalist belief namely the belief in life after death Some images inside the book are unavailable due to digital copyright restrictions René Girard and the Nonviolent God Scott Cowdell, 2018-11-30 In his latest book on the ground breaking work of Ren Girard 1923 2015 Scott Cowdell sets out a new perspective on mimetic theory and theology he develops the proposed connection between Girardian thought and theological dramatic theory in new

directions engaging with issues of evolutionary suffering and divine providence inclusive Christian uniqueness God's judgment nonviolent atonement and the spiritual life Cowdell reveals a powerful illuminating and life enhancing synergy between mimetic theory and Christianity at its best With religion widely seen as increasingly violent and intransigent the true Christian emphasis on divine solidarity mercy and healing is in danger of being lost Ren Girard provides a countervailing voice He emerges from Cowdell's study not only as a necessary dialogue partner for theology today but as a global prophet offering hope and challenge in equal measure Ren Girard was a Catholic cultural theorist whose mimetic theory achieved a powerful symbiosis of social science with scripture and theology yielding a unique perspective on humanity's origins violent history and future prospects Cowdell maps this synergy revealing theological themes present from Girard's earliest writings to the latest less familiar publications He resolves a number of theological challenges to Girard's work engaging mimetic theory in fruitful dialogue with key themes movements and thinkers in theology today Bringing a distinctive Anglican voice to a largely Catholic debate Cowdell gives an orthodox theological account of Girard's intellectual achievement bearing witness to Christianity's nonviolent God This book will be of great interest to theologians seminarians and clergy of all traditions Girardians and Christian peace activists [The Truth of Mankind](#) Cesáreo Bandera, 2024-07-05 The Truth of Mankind draws on Cesáreo Bandera's long lifetime of critical experience and literary scholarship Bandera is not only a celebrated and distinguished interpreter of Latin and Greek literature of Cervantes and Calderón and many other seminal figures but was also a friend and colleague of the late Ren Girard the celebrated Catholic theorist of the scapegoat mechanism as the fundamental logic underlying all human communities and polities and in the field of literary studies he is considered a decisive interlocutor of Girard Through striking readings of Biblical texts of Cervantes of Virgil and above all of Girard's own works Bandera raises a fundamental question about Girard's theory Can it really as Girard himself thought be articulated in a way that does not rely on any particular theological standpoint Or is it instead as Bandera argues intimately dependent on the revealed truth of Christ on the cross a revealed truth which Girard as a believing Catholic himself confessed The Truth of Mankind will be of interest not only to all who wish to understand Girard's thinking and its relationship to Christianity but also to anyone seeking to understand how Christianity can address the most urgent social and ethical questions faced by human life on this planet *The Difference Nothing Makes* Brian D. Robinette, 2023-02-15 This book explores the doctrinal social and spiritual significance of a central yet insufficiently understood tenet in Christian theology creation from nothing In this original study Brian D Robinette offers an extended meditation on the idea of creation out of nothing as it applies not only to the problem of God but also to questions of Christology soteriology and ecology His basic argument is that creatio ex nihilo is not a speculative doctrine referring to cosmic origins but rather a foundational insight into the very nature of the God world relation one whose implications extend throughout the full spectrum of Christian imagination and practice In this sense it serves a grammatical role it gives orientation and scope to all Christian speech about the God world relation In part

1 Robinette takes up several objections to creatio ex nihilo and defends the doctrine as providing crucial insights into the gifted character of creation Chapter 2 underscores the contemplative dimensions of a theological inquiry that proceeds by way of unknowing Part 2 draws from the field of mimetic theory in order to explore the creative and destructive potential of human desire Part 3 draws upon the Christian contemplative tradition to show how the dark night of faith is a spiritually patient and discerning way to engage the sense of divine absence that many experience in our post religious post secular age The final chapter highlights creatio ex nihilo as an expression of divine love God's love for finitude for manifestation for relationship Throughout Robinette engages with biblical patristic and contemporary theological and philosophical sources including among others Ren Girard Karl Rahner and Sergius Bulgakov *Contagion*, 2007 *The Riverside New Testament* William Gay Ballantine, 1923 **Prophecies, Miracles and Visions of St. Columba (Columcille)** Saint Adamnan, 1894 *First Things*, 2001 **Origins**, 1996 *The Four Gospels: Translated from the Greek Text of Tischendorf, with the Various Readings of Griesbach, Lachmann, Tischendorf, Tregelles, Meyer, Alford, and Others* Nathaniel Smith Folsom, 1871 *The Four Gospels* Nathaniel Smith Folsom, 1885 **God in France** Peter Jonkers, Ruud Welten, 2005 According to some French philosophy has taken an obvious turn towards into a theological context In their work contemporary philosophers such as Ricoeur Levinas Girard Henry and even Derrida and Lyotard in their later periods focus on issues usually associated with theological debates For thinkers like Henry Marion and Lacoste theology even plays a prominent role in their thought Why this post Heideggerian turn to God This book introduces the typically French debate of the so called theological turn of French philosophy through a presentation of the philosophers mentioned Why are they all interested in the quest for God and Religion How do they understand God in a philosophical way Thinking about these questions offers to both philosophy and theology the opportunity for a crossover which is mutually enriching This book aims to contribute to this fascinating process *Journal of Biblical Literature*, 1987 **"The Double-edged Sword of Word and Deed" Revolutionary Terrorism and Russian Literary Culture** Lynn Ellen Patyk, 2005 **Violence and Truth** Paul Dumouchel, 1988 **The Winston Commentary on the Gospels** Michael Fallon, 1980
