## Varieties Of Secularism In A Secular Age:

**Varieties of Secularism in a Secular Age** Michael Warner, Jonathan VanAntwerpen, Craig J. Calhoun, 2010-03-15 What does it mean to say that we live in a secular age? This apparently simple question opens into the massive provocative and complex *A Secular Age* where Charles Taylor positions secularism as a defining feature of the modern world not the mere absence of religion and casts light on the experience of transcendence that scientific explanations of the world tend to neglect. In *Varieties of Secularism in a Secular Age* a prominent and varied group of scholars chart the conversations in which *A Secular Age* intervenes and address wider questions of secularism and secularity. The distinguished contributors include Robert Bellah, Jos Casanova, Nilfer G le William E Connolly, Wendy Brown, Simon During, Colin Jager, Jon Butler, Jonathan Sheehan, Akeel Bilgrami, John Milbank and Saba Mahmood. *Varieties of Secularism in a Secular Age* succeeds in conveying to readers the complexity of secularism while serving as an invaluable guide to a landmark book.

## **Working with A Secular Age** Florian Zemmin, Colin Jager, Guido Vanheeswijck, 2016-03-21

Charles Taylor's monumental book *A Secular Age* has been extensively discussed, criticized and worked on. This volume by contrast explores ways of working with Taylor's book especially its potentials and limits for individual research projects. Due to its wide reception it has initiated a truly interdisciplinary object of study with essays drawn from various research fields. This volume fosters substantial

conversation across disciplines. *How (Not) to Be Secular* James K. A. Smith, 2014-05-01 *How Not to Be Secular* is what Jamie Smith calls your hitchhiker's guide to the present. It is both a reading guide to Charles Taylor's monumental work *A Secular Age* and philosophical guidance on how we might learn to live in our times. Taylor's landmark book *A Secular Age* (2007) provides a monumental incisive analysis of what it means to live in the post-Christian present a pluralist world of competing beliefs and growing unbelief. Jamie Smith's book is a compact field guide to Taylor's insightful study of the secular making that very significant but daunting work accessible to a wide array of readers. Even more though, Smith's *How Not to Be Secular* is a practical philosophical guidebook a kind of how to manual on how to live in our secular age. It ultimately offers us an adventure in self-understanding and maps out a way to get our bearings in today's secular culture no matter who we are whether believers or skeptics devout or doubting self-assured or puzzled and confused. This is a book for any thinking person to chew on.

*Reasoning With Who We Are* Mark Redhead, 2014-04-04 Public reasoning a manner of democratic deliberation that can generate meaningful conceptions of justice the collective good and other unifying political values among individuals subscribing to varied and contrasting doctrines has been a perennial concern among political philosophers from historical thinkers such as Immanuel Kant to contemporary theorists like John Rawls and Jürgen Habermas. In this ambitious study Mark Redhead explores versions of public reasoning in the works of six of the most important voices in contemporary political theory Alasdair MacIntyre, Charles Taylor, Hannah Arendt, Seyla Benhabib, Michel Foucault and William E Connolly. He identifies an important but as of yet unappreciated version of public reasoning one that provides

creative and effective responses to questions at the forefront of liberal democratic political thought human rights secularity and global governance **Global Secularisms in a Post-Secular Age** Michael Rectenwald, Rochelle Almeida, George Levine, 2015-10-16 Global Secularisms addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included

**Beyond the Secular West** Akeel Bilgrami,2016-03-22

What is the character of secularism in countries that were not pervaded by Christianity such as China India and the nations of the Middle East To what extent is the secular an imposition of colonial rule How does secularism comport with local religious cultures in Africa and how does it work with local forms of power and governance in Latin America Has modern secularism evolved organically or is it even necessary and has it always meant progress A vital extension of Charles Taylor s A Secular Age in which he exhaustively chronicled the emergence of secularism in Latin Christendom this anthology applies Taylor s findings to secularism s global migration Abdullahi Ahmed An Na im Rajeev Bhargava Akeel Bilgrami Souleymane Bachir Diagne Sudipta Kaviraj Claudio Lomnitz Alfred Stepan Charles Taylor and Peter van der Veer each explore the transformation of Western secularism beyond Europe and the collection closes with Taylor s response to each essay What began as a modern reaction to as well as a stubborn extension of Latin Christendom has become a complex export shaped by the world s religious and political systems Brilliantly alternating between intellectual and methodological approaches this volume fosters a greater engagement with the phenomenon across disciplines

**Security after Christendom** John

Heathershaw,2024-02-13 We live in the wealthiest and most heavily defended world in history so why do we feel so insecure In a secular world what does Christian theology have to say about this problem Security after Christendom combines practical examples social scientific research and an ecumenical approach to political theology to answer these questions It argues that Christendom was a plural phenomenon of imagined security communities of East and West whose unravelling continues to have implications for global politics today as dramatically illustrated by Russia s war in Ukraine While notions of a new Christendom are idolatrous and delusional secular imaginaries of national security or the liberal international order are both destructive and unstable True security radical inclusion nonviolent protection and abundant provision is an eschatological phenomenon inaugurated by Christ Security after Christendom is neither found in faithful government nor an exclusive church as polis approach but in relations of tension where the fallen powers are continuously confronted by prophetic practices A post Christendom community expresses its love for the world by seeking its security providentially limiting the disorders of the secular age and offering glimmers of a new earth

**Religious Difference in a Secular Age**

Saba Mahmood,2015-11-03 How secular governance in the Middle East is making life worse not better for religious minorities The plight of religious minorities in the Middle East is often attributed to the failure of secularism to take root in the region Religious Difference in a Secular Age challenges this assessment by examining four cornerstones of secularism political and civil equality minority rights religious freedom and the legal separation of private and public domains Drawing on her extensive fieldwork in Egypt with Coptic Orthodox Christians and Bahais religious minorities in a predominantly Muslim country Saba Mahmood shows how modern secular governance has exacerbated religious tensions and inequalities rather than reduced them Tracing the historical career of secular legal concepts in the colonial and postcolonial Middle East she explores how contradictions at the very heart of political secularism have aggravated and amplified existing forms of Islamic hierarchy bringing minority relations in Egypt to a new historical impasse Through a close examination of Egyptian court cases and constitutional debates about minority rights conflicts around family law and controversies over freedom of expression Mahmood invites us to reflect on the entwined histories of secularism in the Middle East and Europe A provocative work of scholarship Religious Difference in a Secular Age challenges us to rethink the promise and limits of the secular ideal of religious equality
