them Exotic plants and animals poured into London from all corners of the Empire while revolutionary theories such as the radical idea that humans might be descended from apes drew crowds to heated debates Men and women of all social classes avidly collected scientific specimens for display in their homes and devoured literature about science and its practitioners Victorian Science in Context captures the essence of this fascination charting the many ways in which science influenced and was influenced by the larger Victorian culture Contributions from leading scholars in history literature and the history of science explore questions such as What did science mean to the Victorians For whom was Victorian science written What ideological messages did it convey The contributors show how practical concerns interacted with contextual issues to mold Victorian science which in turn shaped much of the relationship between modern science and culture *The Perfect Medium* Clément Chéroux, Andreas Fischer, Pierre Apraxine, Denis Canguilhem, Sophie Schmit, 2005-01-01 In the early days of photography many believed and hoped that the camera would prove more efficient than the human eye in capturing the unseen Spiritualists and animists of the nineteenth century seized on the new technology as a method of substantiating the existence of supernatural beings and happenings This fascinating book assembles more than 250 photographic images from the Victorian era to the 1960s each purporting to document an occult phenomenon levitations apparitions transfigurations ectoplasms spectres ghosts and auras Drawn from the archives of European and American occult societies and private and public collections the photographs in many cases have never before been published The Perfect Medium studies these rare and remarkable photographs through cultural historical and artistic lenses More than mere curiosities the images on film are important records of the cultural forces and technical methods that brought about their production They document in unexpected ways a period when developing photographic technology merged with a popular obsession with the occult to create a new genre of haunting experimental photographs *Science Illustrated* Jennifer Tucker, 1996 *Catalogue* Bailey Brothers, 1887 **Catalogue of Printed Books** British Museum. Department of Printed Books, 1902 *The Literary World*, 1894 **Fugitive Images** Patrice Petro, 1995 Photography criticism comes into its own with this gallery of images faces portraits erotica apparitions landscapes monuments crowds Editor Patrice Petro gathers the most current debates about the image's complex relation to the things it seems to document and its powerful ability to indicate or attest to what has been **Quarterly Transactions of the British College of Psychic Science** British College of Psychic Science, 1924 *General catalogue of printed books* British museum.
