 diagrams size 8 25 x 10 75 inches This manual is a must have for any owner of a 1950 through 1969 motorcycle scooter or
 moped equipped with a Wipac electrical system Wipac issued two ring bound versions of this manual The first was titled
 Number 3 Manual and the second Motorcycle Scooter Manual but unfortunately the publication dates of the individual pages
 were not identified However based on the contents we can estimate that they were published in 1964 and 1969
 approximately The later manual contains considerably more information plus numerous updates to the data in the earlier
 manual Unfortunately some of the information from the earlier manual was also omitted from the later manual as it was
 probably considered to be outdated However as that outdated information is of significant interest to today s owners and
 restorers we have combined the entire data from both manuals into a single publication Please note that wherever the earlier
 data had been updated we have only included the latest update in order to prevent duplication of information This
 combination manual includes alternator and generator testing and servicing instructions spare parts illustrations and part
 numbers plus Technical Data Sheets and Service Bulletins that provide additional information due to model updates and or
 electronic equipment modifications It also includes wiring diagrams by individual model type including A J S Ariel B S A

 this publication is devoted to the operation testing servicing maintenance overhaul and adjustment of all the major Wipac
