Verlorene Siege:

Erich von Manstein Benoît Lemay, 2010-07-27 A selection of the Military Book Club An informative and objective biography of a genius commander and a study of his loyalty to the Nazi cause Library Journal To many close students of World War II Erich von Manstein is considered the greatest commander of the war if not the entire twentieth century He devised the plan that conquered France in 1940 and led an infantry corps in that campaign At the head of a panzer corps he reached the gates of Leningrad in 1941 then took command of 11th Army and conquered Sevastopol and the Crimea After destroying another Soviet army in the north he was given command of the ad hoc Army Group Don to retrieve the German calamity at Stalingrad whereupon he launched a counteroffensive that against all odds restored the German front Afterward he commanded Army Group South nearly crushing the Soviets at Kursk and then skillfully resisted their relentless attacks as he traded territory for coherence in the East Though an undoubtedly brilliant military leader whose achievements considering the forces at his disposal rivaled of Patton Rommel MacArthur and Montgomery surprisingly little is known about Manstein himself save for his own memoir and the accolades of his contemporaries In this book we finally have a full portrait of the man including his campaigns and an analysis of what precisely kept a genius like Manstein harnessed to such a dark cause A great military figure but a man who lacked a sharp political sense Manstein was very much representative of the Germano Prussian military caste of his time Though Hitler was uneasy about the influence he had gained throughout the German Army Manstein ultimately declined to join any clandestine plots against his Führer believing they would simply cause chaos the one thing he abhorred Though he constantly opposed Hitler on operational details he considered it a point of loyalty to simply stand with the German state in whatever form Though not bereft of personal opinions his primary allegiances were first to Deutschland and second to the soldiers under his command who had been committed against an enemy many times their strength It is thus through Manstein that the attitudes of other high ranking officers who fought during the Second World War particularly on the Eastern Front can be illuminated This book is a well researched convincingly reasoned analysis of a general widely considered one of WWII's great commanders Publishers Weekly Includes photographs

Verlorene Siege. Lost Victories ... Edited and Translated by Anthony G. Powell, Etc. With Plates, Including Portraits. Fritz Erich von MANSTEIN, Anthony G. Powell, 1958 *The Blitzkrieg Legend* Karl-Heinz Frieser, 2013-04-11 Here for the first time in English is an illuminating new German perspective on the decisive Blitzkrieg campaign of 1940 Karl Heinz Frieser's account provides the definitive explanation for Germany's startling success and the equally surprising and rapid military collapse of France and Britain on the European continent In a little over a month Germany decisively defeated the Allies in battle a task that had not been achieved in four years of brutal fighting during World War I First published in 1995 as the official German history of the 1940 campaign in the west the book goes beyond standard explanations to show that German victory was not inevitable and French defeat was not preordained Contrary to the usual accounts of the

campaign Frieser illustrates that the military systems of both Germany and France were solid and that their campaign planning was sound. The key to victory or defeat he argues was the execution of operational plans both preplanned and ad hoc amid the eternal Clausewitzian combat factors of friction and the fog of war. Frieser shows why on the eve of the campaign the British and French leaders had good cause to be confident and why many German generals were understandably concerned that disaster was looming for them. This study explodes many of the myths concerning German Blitzkrieg warfare and the planning for the 1940 campaign. A groundbreaking new interpretation of a topic that has long interested students of military history it is being published in cooperation with the Association of the U S Army.

Command Failure in War Philip Langer, Robert Pois, 2004-05-12 Why do military commanders most of them usually quite capable fail at crucial moments of their careers? Robert Pois and Philip Langer, one a historian the other an educational psychologist, study seven cases of military command failures from Frederick the Great at Kunersdorf to Hitler's invasion of Russia. While the authors recognize the value of psychological theorizing they do not believe that one method can cover all the individual battles or campaigns under examination. Instead they judiciously take a number of psycho-historical approaches in hope of shedding light on the behaviors of commanders during war. The other battles and commanders studied here are Napoleon in Russia, George B. McClellan's Peninsula Campaign, Robert E. Lee and Pickett's Charge at Gettysburg, John Bell Hood at the Battle of Franklin, Douglas Haig and the British command during World War I, Bomber Harris and the Strategic Bombing of Germany and Stalingrad.

Wolfram Von Richthofen James S. Corum, 2008 The first book-length biography of the Luftwaffe's top field commander Wolfram von Richthofen, a master of the tactical and operational air war, one of the key catalysts in the resurrection of the German air force and an ardent and unwavering follower of the Führer.

Inside Hitler's High Command Geoffrey P. Megargee, 2000 Challenging previous accounts, Megargee shatters the myth that German generals would have prevailed in World War II if only Hitler had not meddled in their affairs. Instead he observes that the military's strategic ideas were no better than Hitler's and often were worse.

Festung Königsberg between January and April 1945 - "Uns geht die Sonne nicht unter" Bastiaan Willems, 2013-03-11 Master's Thesis from the year 2012 in the subject History of Germany / National Socialism / World War II. University of Edinburgh course Second World War in Europe. Königsberg 1945. Language: English. Abstract: This dissertation strives to analyse the different causes as to why the city of Königsberg held out for over two months before it was finally captured by the Red Army in order to answer the question what determined the successfulness of the city as a Festung. The conclusion will expand the analyses to the Festung strategy as a whole and to other fortress cities in Eastern Germany.
