*Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy* Francesca Helm, Linda Bradley, Marta Guarda, Sylvie Thouësny, 2015-12-02 The theme of the conference this year was Critical CALL drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term critical has many possible interpretations and as Pennycook 2001 outlines has many concerns. It was from these that we decided on the conference theme in particular the notion that we should question the assumptions that lie at the basis of our praxis ideas that have become naturalized and are not called into question. Over 200 presentations were delivered in 68 different sessions both in English and Italian on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings

**Look Round for Poetry** Brian McGrath, 2022-05-17 Poetry is dead Poetry is all around us Both are trite truisms that this book exploits and

challenges In his 1798 Advertisement to Lyrical Ballads William Wordsworth anticipates that readers accustomed to the poetic norms of the day might not recognize his experiments as poems and might signal their awkward confusion upon opening the book by looking round for poetry as if seeking it elsewhere Look Round for Poetry transforms Wordsworth's idiomatic expression into a methodological charge By placing tropes and figures common to Romantic and Post Romantic poems in conjunction with contemporary economic technological and political discourse Look Round for Poetry identifies poetry's untimely echoes in discourses not always read as poetry or not always read poetically Once one begins looking round for poetry McGrath insists one might discover it in some surprising contexts In chapters that spring from poems by Wordsworth Lucille Clifton John Keats and Percy Bysshe Shelley McGrath reads poetic examples of understatement alongside market demands for more the downturned brow as a figure for economic catastrophe Romantic cloud metaphors alongside the rhetoric of cloud computing the election of the dead as a poetical and not just a political act and poetic investigations into the power of prepositions as theories of political assembly For poetry to retain a vital power McGrath argues we need to become ignorant of what we think we mean by it In the process we may discover critical vocabularies that engage the complexity of social life all around us
