Chorafas, 2016-04-30 As financial positions expand the economy becomes more vulnerable to adverse and unexpected developments taking place outside the six to seven year

business cycle Over 50 years ago Nikolai Kondratieff developed the theory of The Long Waves in Economic Life which incorporated an extended cycle of innovation and upward thrust and changed our understanding of business cycles in financial settings Financial Cycles concentrates on two areas that have thus far been omitted from mainstream economics The first is the impact of the longer term financial cycle the second is the beginning of de globalization as the world enters an era of iron glad economic blocks Chorafas argues that to overcome the more narrow limits of the business cycle we need to go beyond its traditional six to seven year focus and address the longer term This includes the building up and running off of economic risks characterizing the financial cycle as well as the appreciation of forces underwriting both its growth and its decay An ever increasing public debt and the behavior of the banking industry are two principal reasons why the structure of analysis characterizing the previous financial cycle no longer fits present day realities A new methodology starts getting in shape even if it still has to acquire political legitimacy

Practical Doomsday Michal Zalewski,2022-01-11

Disasters happen Be prepared Here s how As a leading security engineer Michal Zalewski has spent his career methodically anticipating and planning for cyberattacks In Practical Doomsday Zalewski applies the same thoughtful rational approach to preparing for disasters of all kinds By sharing his research advice and a healthy dose of common sense he ll help you rest easy knowing you have a plan for the worst even if the worst never comes The book outlines a level headed model for evaluating risks one that weighs the probability of scenarios against the cost of preparing for them You ll learn to apply that model to the whole spectrum of potential crises from personal hardships like job loss or a kitchen fire to large scale natural disasters and industrial accidents to recurring pop culture fears like all out nuclear war You ll then explore how basic lifestyle adjustments such as maintaining a robust rainy day fund protecting yourself online and fostering good relationships with your neighbors can boost your readiness for a wide range of situations You ll also take a no nonsense look at the supplies and equipment essential to surviving sudden catastrophes like prolonged power outages or devastating storms and examine the merits and legal implications of different self defense strategies You ll learn How to identify and meaningfully assess risks in your life then develop strategies for managing them Ways to build up and diversify a robust financial safety net a key component of nearly all effective preparedness strategies How to adapt your prep plans to a variety of situations from shelter in place scenarios to evacuations by car or on foot Sensible approaches to stockpiling food water and other essentials along with recommendations on what supplies are actually worth having Disasters happen but they don t have to dominate your life Practical Doomsday will help you plan ahead so you can stop worrying about what tomorrow may bring and start enjoying your life today
