Pandemic Response and the Cost of Lockdowns Peter Sutoris,Sinéad Murphy,Aleida Mendes Borges,Yossi Nehushtan,2022-11-30 Pandemic Response and the Cost of Lockdowns brings the vast analytical apparatus of the humanities and social sciences to the task of critically analysing the political decisions taken in 2020 21 The global response to the COVID 19 pandemic left little time for critical debate about the impact of lockdowns Across the world governments claimed to follow the science but they rarely paid attention to the humanities and social sciences Indeed the absence of these perspectives is symptomatic of a longer term trend in the marginalisation of the humanities and social sciences in policymaking and public debate This book exposes the tragic consequences of this omission in 2020 21 and demonstrates the potential for a different path in the future a path in which we pay attention to power complexity and our biases The authors establish what these disciplines have to offer in a global emergency and how we can ensure they help us avoid the mistakes of 2020 21 in the future This original and interdisciplinary book will be of great interest to students scholars and researchers throughout the humanities and social sciences including the fields of philosophy sociology anthropology law political science and history as well as relevant policymakers **The American Journal of Nursing** ,1929 The Survey ,1928 1998 Writer's Market Kirsten C. address the inequities and injustices that far too often result in courtrooms across the United States. From the investigatory stage to the sentencing and appellate stages many criminal defendants particularly those from marginalized communities often face procedural and structural barriers that taint the criminal justice system with the stain of unfairness prejudice and arbitrariness. Systematic flaws in the criminal justice system underscore the inequitable processes by which courts deprive citizens of liberty and in some instances their lives. Comprehensive in its scope and applicability the book focuses upon the procedural and substantive barriers that often prohibit defendants from receiving fair treatment within the United States criminal justice system. Each chapter is devoted to a particular flaw in the criminal justice system and is divided into two parts. First the authors discuss in depth the underlying causes and effects of the flaw at issue. Second the authors present a wide range of possible solutions to address this flaw and to lead to greater equality in the administration of criminal justice. The reader is encouraged throughout to consider and assess all possible options then defend their choices and preferences. Confronting these issues is critical to reducing racial disparities and guaranteeing Justice for all. Describing the problems and assessing the solutions Justice for All does not identify all problems or all solutions but will be of immeasurable value to criminal justice students and scholars as well as attorneys judges and legislators who strive to address the pervasive flaws in the criminal justice system.
