### **Environmental Policy Science's Exploration for Innovative Data**

Nicholas Guehlstorf, 2025-08-04 This edited volume discusses the use of nontraditional data sources in environmental political research and its implications for policymaking Researchers involved in natural resource investigations and pollution control analysis must be entrepreneurial in finding and utilizing data sets to answer pressing policy questions To remain relevant successful researchers must increasingly seek data beyond routine federal program assessments fragmented local surveys and limited stakeholder interactions This volume surveys current environmental research that draws on emerging data sources such as social media and political discourse It poses critical questions about the potential of creative and innovative analytical approaches particularly in contexts where policymakers have disregarded objective evidence based social science on environmental challenges By encouraging scholars to adopt new methods research designs and data sources this book offers valuable insights for researchers across the social and environmental sciences

**Breakpoint** B. C. Jackson, 2018-04-17 An insightful look at the American environmental crisis and emerging solutions from the heartland to the coasts in the era of global climate change Eminent ecologist Jeremy B C Jackson and award winning journalist Steve Chapple traveled the length of the Mississippi River interviewing farmers fishermen scientists and policymakers to better understand the mounting environmental problems ravaging the United States Along their journey which quickly expands to California Florida and New York the pair uncovered surprising and profound connections between ecological systems and environmental crises across the country Artfully weaving together independent research and engaging storytelling Jackson and Chapple examine the looming threats from recent hurricanes and fires industrial agriculture river mismanagement extreme weather events drought and rising sea levels that are pushing the country toward the breaking point of ecological and economic collapse Yet despite these challenges the authors provide optimistic and practical solutions for addressing these multidimensional issues to achieve greater environmental stability human well being and future economic prosperity

With a passionate call to action they look hopefully toward emerging and achievable solutions to preserve the country's future

Energy Economics Peter M. Schwarz, 2022-10-24 *Energy Economics* outlines the fundamental issues and possible solutions to the challenges of energy production and use presenting a framework for decisions based upon sound economic analysis This approach considers market forces and policy goals including economic prosperity environmental protection and societal well being The second edition has been thoroughly updated addressing dramatic shifts in the use of fuel and electricity accelerated plans for the use of renewable energy and pathways towards a lower carbon future A new chapter on electric vehicles examines its impact on transportation the electricity market and carbon emissions Global examples throughout the book reflect the universal application of energy economics With this economic foundation coupled with perspectives from real world applications and perspectives from related disciplines this text sharpens the student's ability to understand evaluate and critique energy policy A companion website provides reinforcement for students through multiple choice self test quizzes and homework exercises as well as additional materials for instructors This textbook should be essential reading for students of energy economics environmental and natural resource economics energy related disciplines and general readers seeking to expand their knowledge of energy economics and policy

*Jump Start Web Performance* Craig Buckler, 2020-02-11 Despite working on the web every day few developers have a good word to say about the monster they've created Achingly slow sites with annoying overlays cookie agreements instant notifications and obtrusive ads litter the web landscape While there may be some excuses for complex web applications there's little justification for sluggish content based and ecommerce sites People are notoriously impatient and an unresponsive site receives fewer visitors and conversions This practical short book provides advice tips and best practice for improving website performance ranging from quick five minute configuration changes to major website overhauls We primarily concentrate on front end activities and server configurations to optimize the code delivered to a browser Some back end tips are provided but this is often specific to your application framework database and usage patterns Server side performance can often be improved with additional or more powerful computing resources Ideally everyone involved in a project would consider performance from the start Somewhat understandably that rarely occurs because no one can appreciate the speed of a website or application before it's been created Many of the tips contained in this book can therefore be applied after your project has been delivered

Films That Spill Marie Sophie Beckmann, 2025-03-11 *Films That Spill* is a comprehensive study of the Cinema of Transgression a hitherto underexamined moment in US underground film culture Reconsidering the concept of transgressive cinema not only as a description of the intentionally provocative content of the films but also as a feature of a cross disciplinary practice Marie Sophie Beckmann explores how filmmaking in the context of the vibrant and intermingling art music performance and film scenes in 1980s Lower Manhattan spilled over the boundaries of artistic disciplines media formats and content concepts This study not only provides a microhistory of these scenes and insight into their afterlife in archives and exhibitions but also

represents an innovative contribution to debates within film media and visual culture about the methodological and historiographical challenges posed by the expansion of film beyond the discursive boundaries of cinema     *Farmer's Weekly* ,1922     **The Builder** ,1910-07     **Chain Store Age** ,1958     **EDN.** ,1983     **Better Fruit, Better Vegetables** ,1909     **Contract Record** ,1937     **Engineering & Contract Record** ,1937     The Oil and Gas Journal ,1938     **George Broomhall's Corn Trade News** ,1903     **A New English Dictionary on Historical Principles** James Augustus Henry Murray, Sir William Alexander Craigie, Charles Talbut Onions, 1919     **"A" New English Dictionary on Historical Principles** William A.
