[**Maine to Greenland**](#) Wilfred E. Richard,William Fitzhugh,2014-08-05

Maine to Greenland is a testament to one of the world's great geographic regions the Maritime Far Northeast. For more than three decades William W Fitzhugh and Wilfred E Richard have explored the Northeast's Atlantic corridor and its fascinating history, habitat and culture. The authors powerful personal essays and Richard's stunning photography transport readers to this vibrant region joining Smithsonian archaeological expeditions and trekking in vast and amazing terrain. Following Fitzhugh and Richard's travels north from Maine to the Canadian Maritimes, Newfoundland and northern Quebec then to Labrador, Baffin and Ellesmere islands and Greenland we view incredible landscapes, uncover human history and meet luminous personalities along the way. Fully illustrated with 350 full color photographs, *Maine to Greenland* is the first in depth treatment of the Northeast Atlantic corridor and essential for armchair travelers, locals, tourists or anyone who has journeyed there. Today green technology, climate change and the opening of the Arctic Ocean have transformed the Maritime Far Northeast from an icy frontier into a global resource zone and an increasingly integrated international crossroads. In our rapidly converging world we have much to learn from the Maritime Far Northeast and how its variety of cultures have adapted to rather than changed their environments during the past ten thousand years. *Maine to Greenland* is not only a complete account of the region's unique culture and environment but also a timely reminder that amidst the very real consequences of climate change the inhabitants of the Maritime Far Northeast can show us grounded and sustainable ways of living.
