This massive true life tale is anchored in the lives of three real life figures: Ida Mae Brandon Gladney, George Swanson Starling and Robert Pershing Foster, who originated from different southern towns and migrated to different urban cities of the North at different times. They left for a personal set of diverse reasons and lived unique lives that diverged drastically from one another. Although they never knew each other and were unaware of their individual roles in one of the largest migrations movements in modern human history, these three characters were connected by a shared determination to seek freedom in a shared vision of the North. **BEFORE YOU BUY** The purpose of this FastReads Summary is to help you decide if it's worth the time, money and effort reading the original book if you haven't already. Shaped my Life John E. Pepper, 2025-10-25 John Pepper's love affair with books began when he was a child. He sought refuge and escape in books; he began to explore the world through them; he developed friendships of a sort with the authors whose writing inspired him. Over time he came to know many of his favorite authors personally. As he said later, "Reading let me know I wasn't alone." He began to write about the books he was reading many decades ago, summarizing them, calling out passages that stood out for him and reflecting on their timeless relevance and lessons. Those summaries captured in *100 Books That Informed and Changed My Life* are like a fireside chat with John about the books he's loved, what he learned from them and what they still say to us today. The Conservative Heartland Jon K. Lauck, Catherine McNicol Stock, 2020-04-17 In the wake of the 2016 presidential election, there was widespread shock that the Midwest, the Democrats' so-called blue wall, had been so effectively breached by Donald Trump. But the blue wall, as *The Conservative Heartland* makes clear, was never quite as secure as so many observers assumed. A deep look at the Midwest's history of conservative politics, this timely volume reveals how conservative victories in

American Politics and the African American Quest for Universal Freedom

Hanes Walton, Jr, Robert C. Smith, Sherri L. Wallace, 2017-03-30 This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had and continue to have on American politics. Through the use of two interrelated themes, the idea of universal freedom and the concept of minority majority coalitions, the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans. New to the Eighth Edition: A new co-author, Sherri L. Wallace, is renowned for her teaching scholarship and participation in APSA's American government textbook assessment for coverage of race, ethnicity, and gender. She is the perfect addition following an election year that included female presidential candidates as well as candidates of color and issues focusing on racial tension and inequality. Offers a new Media Integration Guide for the first time. Provides the first overall assessment of the Obama administration in relation to domestic and foreign policy and racial politics in particular. Updated through the 2016 elections, connecting the Obama years with the new administration. Looks at candidates Hillary Clinton and Ben Carson in particular in relation to the themes of the book. Adds a new section on State Politics and Elections. Includes new sections on intersectionality dealing with issues of race, gender, and sexuality. LGBT issues as another manifestation of the struggle for universal freedom. A discussion of the Black Lives Matter movement and a new section focusing on the changing character of black ethnicity as a result of increased immigration from Africa and the Caribbean. Discusses the way in which race contributed to the polarization of American politics, the connections to the Tea Party and the Obama Presidency, and the 2016 presidential campaign as the most polarized since the advent of polling. Previews the impact of the Trump Administration on matters of race and ethnicity.

Sir Richard Branson, founder of the Virgin Group, "We are a species in motion from the first steps of Homo sapiens across Africa to America's melting pot. And when we move in search of better things or against our will, our beliefs and skills clash and combine, reshaping society time and again. In this visionary Shortest History of Migration, Ian Goldin uncovers key moments of cultural exchange while carefully examining empire, slavery, and war. Throughout, we meet famous explorers, Zheng He, exiles, Pablo Neruda, and everyday people in extraordinary circumstances: a Jewish man saved by the Kindertransport, a Japanese gardener who blossomed in Mexico City. Today, freedom of movement is being curtailed even as climate change and conflict mobilize people everywhere around the world. Goldin reminds us that passports at every border are a modern invention; he traces the birth of big brother to World War I, revealing the folly of

trying to halt migration and proposing commonsense policy instead A gripping chronicle of want and wanderlust this is a moving portrait of humanity in every sense of the word The Shortest History books deliver thousands of years of history in one riveting fast paced read 1 Bestseller in Human Geography and Emigration Immigration *Talking Book Topics* ,2013
