## **The Wisdom Of Religious Commitment The Wisdom Of Religious Commitment:**

*The Wisdom of Religious Commitment* Terrence W. Tilley, 1995-04-05 By exploring a practical rather than propositional understanding of religious belief this book provides a new construct through which to view philosophy of religion Terrence W. Tilley shifts the focus of debate from the justification of rational belief to the exercise of wisdom in making or maintaining a commitment to religious practices. It is through practices Tilley concludes that religious belief is formed. After analyzing the strengths and limitations of the modern approaches Tilley applies the concept of wisdom to the process of making a religious commitment. Wisdom as explored by Aristotle, St Thomas Aquinas and John Henry Newman may be thought of as the bridge between intellectual and moral virtues. Roughly it can be described as the ability to put intellect into action in a context. Because wisdom is a virtue requiring concrete display the book discusses the wisdom of commitment to specific religious practices of a range of traditions. These examples demonstrate the issues and complexities involved in the wisdom of making a religious commitment. This important challenge to contemporary philosophy of religion will be of special interest to students and teachers of theology and philosophy of religion.

## **Disagreement, Deference, and Religious Commitment**

John Pittard, 2020 Every known religious or explicitly irreligious outlook is contested by large contingents of informed and reasonable people. Many philosophers have argued that reflection on this fact should lead us to abandon confident religious or irreligious belief and to embrace religious skepticism. John Pittard critically assesses the case for such disagreement motivated religious skepticism. While the book focuses on religious disagreement it makes a number of significant contributions to the more general discussion of the rational significance of disagreement as well.

*Intellectual, Humanist and Religious Commitment* Peter Forrest, 2019-07-25 This book offers a rigorous analysis of why commitment matters and the challenges it presents to a range of believers. Peter Forrest treats commitment as a response to lost innocence. He considers the intellectual consequences of this by demonstrating why for example we should not believe in angels. He then explores why humans are attached to reason and to humanism recognizing the different commitments made by theist and non-theist humanists. Finally he analyses religious faith specifically fideism defining it by way of contrast to Descartes Pascal and William James as well as contemporary philosophers including John Schellenberg and Lara Buchak. Of particular interest to scholars working on the philosophy of religion the book makes the case both for and against committing to God recognizing that God's divine character sets up an emotional rather than an intellectual barrier to commitment to worship.

**Rationality and Religious Commitment** Robert Audi, 2011-09-22 Rationality and Religious Commitment shows how religious commitment can be rational and describes the place of faith in the postmodern world. It portrays religious commitment as far more than accepting doctrines it is viewed as a kind of life not just as an embrace of tenets. Faith is conceived as a unique attitude. It is irreducible to belief but closely connected with both belief and conduct and intimately related to life's moral, political and aesthetic dimensions. Part One presents an account of rationality as a status attainable by

mature religious people even those with a strongly scientific habit of mind Part Two describes what it means to have faith how faith is connected with attitudes emotions and conduct and how religious experience may support it Part Three turns to religious commitment and moral obligation and to the relation between religion and politics It shows how ethics and religion can be mutually supportive even though ethics provides standards of conduct independently of theology It also depicts the integrated life possible for the religiously committed a life with rewarding interactions between faith and reason religion and science and the aesthetic and the spiritual The book concludes with two major accounts One explains how moral wrongs and natural disasters are possible under God conceived as having the knowledge power and goodness that make such evils so difficult to understand The other account explores the nature of persons human and divine and yields a conception that can sustain a rational theistic worldview even in the contemporary scientific age
