In addition to a precis each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying Nash objectively evaluates each film and confers upon it one of four recommendations for viewing recommended acceptable cautionary and unacceptable. Sickels, 2008-11-30 We love to be entertained. And today's technology makes that easier than ever. Listen to tunes while working out. No problem. Watch a movie on your cell phone. Can do. Get 450 channels of digital entertainment bounced off a satellite and into your vehicle even while traveling through empty wastelands. Simple. But behind these experiences is a complex industry dominated by a handful of global media conglomerates whose executives exert considerable influence over the artists and projects they bankroll. The processes by which products are developed and the methods they use to promote and distribute entertainment. As this set shows, the industries in which commerce, art and technology intersect are among the most fascinating in all of business. Entertainment is a high stakes industry where stars are born and flame out in the blink of an eye where multimillion dollar deals are made on a daily basis and where cultural mores for better or worse are shaped and reinforced. The Business of Entertainment lifts the curtain to show the machinery and sleight of hand behind the films, TV shows, music and radio programs we can't live without. The Business of Entertainment comprises three volumes covering movies, popular music and television. But it's not all about stars and glitter. It's as much about the nuts and bolts of daily life in the industry including the challenges of digitizing content, globalization, promoting stars and shows, protecting intellectual property, developing talent, employing the latest technology and getting projects done on time and within budget. Challenges don't end there. There's also advertising and product placement, the power of reviews and reviewers, the cancerous spread of piracy, the battles between cable and satellite operators and the threat to both from telephone companies, the backlash to promoting gangsta lifestyles and more. Each
