Health Literacy and Libraries Emily Vardell, Deborah Charbonneau, 2024-02-27 Selected as a 2025 Doody's Core Title
This book brings together a diverse range of scholars and practitioners working at the nexus of health literacy work in libraries. This engaging resource presents a practical and accessible guide to meet the needs of librarians, health literacy researchers, and information and service professionals seeking to address health literacy needs in their communities. Through chapters offering multiple perspectives on the topic, the book covers specific types of literacy such as mental health literacy and health insurance literacy, as well as timely applications such as health misinformation. Chapters in this compilation also feature health literacy and the following communities: LGBTQ, Latinx, Black, and Immigrants, Refugees, and Migrants. The book is full of numerous examples, thoughtful advice, and discussions addressing the challenges of working with adolescents and young adults, older adults, and parent caregivers of children with rare diseases. Each chapter starts with Key Messages synthesizing the main points and concludes with a proposed set of Discussion Questions to inspire further reflection and to facilitate health literacy conversations. Overall, the up-to-date coverage of health literacy in various contexts explored throughout the book will be beneficial to a range of stakeholders interested in health literacy work. **Project**

Management for Book Publishers John Rodzvilla, 2024-07-18 Project Management for Book Publishers provides readers with a solid understanding of efficient processes and workflows for content creation, product development, and the marketing and distribution of both physical and digital products. Digital has brought more data, more training, and more accountability to the publishing process. But it has also shone light on how systems designed initially around print-first publications are ill-equipped to support an industry of now, which would be digital media companies. This book addresses some of the major challenges for publishing houses facing this reality, including how to create a digital-aware workflow, implementing quality assurance procedures, and using different management systems to develop an efficient workflow. Beginning by explaining project and product management practices used throughout technology and media companies, it then delves into when and how these principles can be applied to the publishing workflow. Topics covered include Waterfall and Agile Project Management, Scrum methodology, Kanban framework, ebook and audio formats, metadata, quality assurance, crowdfunding, in-app monetization, ONIX, and accessibility. Readers will consider not just how to contend with online platforms that allow authors to publish with the click of a button, and audiences accustomed to accessing content across multiple platforms and formats, but also challenges arising from factors such as the data-driven acquisitions model in libraries, the downward spiral of sales in college bookstores, the call for accessibility, and the need for fluid content systems that can work with different publishing databases and software. Written for publishing professionals at all levels, this book will also help advanced students of Publishing and Book Studies navigate best practices for project management in the modern publishing landscape.
