Award nominee's meteoric rise, his tragic end, and his legacy. At the dawn of the 1990s, a new crew of leading men—Johnny Depp, Nicolas Cage, Keanu Reeves, and Brad Pitt—was rocketing toward stardom. River Phoenix, however, stood in front of the pack. But behind Phoenix's talent and beautiful public face was a young man who had been raised in a cult by nonconformist parents, who was burdened with supporting his family from a young age, and who eventually succumbed to addiction, dying of an overdose in front of the Viper Room, West Hollywood's storied club, at twenty-three. *Last Night at the Viper Room* is part biography, part cultural history of the 1990s, and part celebration of a Hollywood icon gone too soon. Full of interviews from his fellow actors, directors, friends, and family, this book shows the role River Phoenix played in creating the place of the actor in our modern culture and the impact his work still makes today.

New Medicalism and the Mental Health Act John Fanning, 2018-08-09 Ten years have passed since the Mental Health Act (MHA) 2007 came into force in England. An amending statute, the Act reformed the MHA 1983 and reshaped the law governing the compulsory care and treatment of people suffering from mental disorders. Primarily driven by concerns about risk, it sought to remove legalistic obstacles to civil commitment and extend the law's coercive reach into the community. At the time of its

introduction the 2007 Act was written off as a retrograde step and a missed opportunity for radical rights focused reform Despite this little attention has been paid to its impact in the years since Published to coincide with the tenth anniversary of the 2007 Act this book offers a timely evaluation of mental health law and policy in England It argues that the current MHA defies easy categorisation within any of the descriptive models which have customarily narrated the mechanics of civil commitment namely legalism new legalism and medicalism It therefore makes the case for a new model new medicalism to account for the 2007 Act s enhancement of the discretion of mental health professionals for the express purposes of facilitating the management of situations of risk In doing so the book critically examines the problems inherent in civil commitment frameworks organised around the concept of risk explores the theoretical foundations of new medicalism considers the challenges facing proponents of future reform in the era of the UN Convention on the Rights of Persons with Disabilities and reflects on the 2007 Act s practical impact
